

**Premiere
EHSQ Software
Made Collaborative.**

Many EH&S software systems involve multiple applications, restricted access, and redundant processes across unnecessarily confusing software suites. ZERO has created a simple, transparent, and collaborative* platform that encompasses all EH&S needs.

Our goal is to **eliminate** the top causes of the most serious workplace injuries with real-time behavior based.

- Falls - 27%
- Overexertion - 24%
- Object Strikes - 14%
- Equipment misuses - 12%
- Slip/Trip - 6%
- Microtasks - 4%

— These injuries account for over 85% of the cost of insurance claims.

**Behavior
Based Safety**

Observations & Hazards

ZERO empowers employees to instantly report hazards, near misses, system deficiencies, cost savings improvements, incidents, or whatever unique issue you decide — in a completely flexible yet centralized location.

ZERO

- WORKER ENGAGEMENT
- OSHA REPORTING
- SAFETY PERFORMANCE SCORING

ZERO brings together the core features of traditional EH&S Software safety performance scoring, incident reporting, and OSHA Recordables with modern collaborative tools that enable everyone in your company to observe, report, and resolve issues in the workplace.
