ABOUT ME

Dynamic professional passionate about user experience, art and technology. I am a product designer with a diverse background: teacher, artist, animator, blogger, photographer and chef. Working as a designer allows me to employ my skills to make a product evolve and thrive, from strategic thinking to market research and implementing ideas into a visual solution. I'm a self-starter, a quick learner, and a team player, and I am excited to start a new challenge that allows me to expand and refine my design skills in an innovative and collaborative environment.

EXPERIENCE

The Home Fixers

Aug 2017 – Oct 2017

UX/UI Designer

thehomefixers.com | Modi'in, Israel

- Completed end-to-end UX/UI design process for a lead generation platform servicing the home improvement industry.
- Created a new responsive website that led to a measurable increase in conversion rates, through research, strategy, interaction design, prototyping, UI design and pixel-perfect mockups.
- Worked closely with CEO and Lead Engineer to learn about the industry, prioritize projects, and implement changes.

Joodie the Foodie

Jul 2015 — Present

Food Blogger & Photographer

joodiethethefoodie.com | Modi'in, Israel

- Designed and built my website using Wordpress to blog about my cooking exploits.
- Wrote hundreds of pages of content including original recipes in a wide variety of cuisines, ingredients, and cooking techniques.
- Photographed homemade meals in my photography studio using a Canon 5D Mark iii, varying the lighting, backgrounds, props, and editing effects in post-processing.

Park East Day School

Aug 2014 – JUL 2016

Language Immersion Teacher

New York, NY

- Created an immersive foreign language experience to teach Hebrew to a kindergarten class.
- Wrote and iterated on visual educational curriculum weekly.
- Developed interactive solutions for teaching students while speaking entirely in a foreign language.

EDUCATION

DesignLab

Feb 2017 – Dec 2017

UX Academy

trydesignlab.com | Online

- Completed a rigorous UX bootcamp internalizing comprehensive UX skills with over 480 hours of coursework and 50 hands-on projects.
- Participated in weekly group critique sessions, sharing and receiving analysis of dozens of unique projects.
- Completed three end-to-end design briefs, including user research, strategy, interaction design, wireframing, prototyping, testing and visual design.
- Received weekly one-on-one in-person guidance and daily feedback from 2 industry experts.

NYU Tisch

Sep 2009 – May 2013

BFA Film & Television, Computer Animation

New York, NY

- GPA: 3.73, University Honors Scholar Award
- Studio Art and Web Programming & Applications Minors
