

Play Therapy Skills and Methods Webinar

Surviving the Divided Kingdom: Play Therapy for Children in High Conflict Families

Date & Time:

Thursday, October 21st
Noon to 3 pm
EASTERN time.

Participate live or get 60 days access to the recording.

Description:

This 3 hour webinar will apply the current best practices in a prescriptive play therapy approach to helping children in families where there is a high level of disruption and conflict among the adults. We will utilize the framework for trauma informed play therapy to develop a comprehensive treatment approach to promoting emotional and physical safety, and consider how to provide opportunities for children to use the play therapy environment to improve their ability to cope with loyalty binds and begin healing.

Learning Objectives:

1. Explain 1 way to use puppets as an assessment tool and family play therapy intervention.
2. Describe 1 way that play therapists conceptualize how children in divorcing family systems experience loyalty binds as a form of attachment trauma and disruption.
3. Make use of 1 directive prompt in the sand tray as a play therapy strategy to normalize and clarify the loyalty binds experienced by the child.
4. Describe the 3-step process to use a play therapy or expressive art narrative approach with child clients in the digestion of traumatic events which have occurred in the high conflict family system.
