

MAY 10, 2018 – REGULAR MEETING

Minutes of a regular meeting of the Town Board of the Town of Somers held on Thursday evening May 10, 2018 at 6:35 PM at the Town House 335 Route 202, Somers, New York.

ROLL CALL:

PRESENT: Supervisor Rick Morrissey
 Councilman Richard G. Clinchy
 Councilman Thomas A. Garrity, Jr.
 Councilman William G. Faulkner

ABSENT: Councilman Anthony J. Cirieco

Also present were Patricia Kalba, Town Clerk, Linda Verderame, Deputy Town Clerk and Roland A. Baroni, Jr., Town Attorney.

The Supervisor said that it was in order for the Board to enter into an executive session with regard to legal matter and personnel.

Thereupon motion of Supervisor Morrissey, seconded by Councilman Faulkner, the meeting was adjourned to executive session at 6:35 PM to discuss legal and personnel matters to return that evening.

7:15 PM – meeting reconvened

PUBLIC COMMENT:

Ms. Ann Glazer, Heritage Hills, urged the Board to vote in favor of the resolution regarding the Content of Air Emissions Regulations to be developed by the New York State Department of Environmental Conservation (DEC) affecting natural gas infrastructure facilities. She said that the health and safety issue were known with the pipeline although there were no regulations. She said that this was an opportunity to make the pipeline safer.

Mr. Philip Glazer, Heritage Hills, stated that he wanted the Town of Somers to join the Town of North Salem and pass the resolution. He said that there recently was an issue in the Town of North Salem where the school needed to be closed for two (2) days because of the methane gases in the air.

Ms. Marjie Kern, Heritage Hills, said that she agreed with the people who spoke before her and would like to see the Town Board pass the resolution. She said that it was important to the health and safety of the Somers residents.

Ms. Eileen Plastino, Heritage Hills, would also like to urge the Board to approve the resolution. She said that she was concerned about the toxins that were being emitted.

There being no one else to be heard on motion of Supervisor Morrissey, seconded by Councilman Clinchy, public comment session was declared closed.

The Supervisor said that they had been working on the Air Quality issue over the last few months. He said that once it came to their attention that the Department of Environmental Conservation (DEC) did not require the monitoring the concern grew. He said that there would be a launch and retrieve station placed in the Town of Somers and he wanted air monitoring there and anywhere else in Town. The Supervisor said that the Town of Southeast was also considering joining the efforts. He explained the issue that happened recently in the Town of North Salem.

Monthly Reports

The Town Clerk presented monthly reports from the Town Clerk, Building Inspector, Zoning Board of Appeals, Plumbing, Bureau of Fire Prevention, Parks and Recreation, Planning and Engineering, Tax Receiver and Director of Finance.

Award Baumann & Sons Bid

The Supervisor said that the first item on the agenda was to authorize permission to award the bid to Baumann & Sons Buses Inc. for Summer Camp Trip Transportation.

MAY 10, 2018 – REGULAR MEETING

Thereupon motion of Supervisor Morrissey, seconded by Councilman Garrity, it was unanimously,

RESOLVED, that the Town Board does hereby award the bid for Summer Camp Trip Transportation to Baumann & Sons Buses, Inc. in the amount of \$23,794.00, per memo dated April 30, 2018 from Steven Ralston, Superintendent of Parks and Recreation.

Air
Emissions
Regulations

The next item on the agenda was for the Board to consider adopting a resolution regarding the Content of Air Emissions Regulations to be developed by the New York State Department of Environmental Conservation (DEC) affecting natural gas infrastructure facilities. The Supervisor said that he made changes to the resolution, which included Air Quality Monitoring. The Town Attorney stated that the Town of North Salem adopted the Somers version as well.

Thereupon motion of Supervisor Morrissey, seconded by Councilman Faulkner, it was unanimously,

RESOLVED, that the Town Board does hereby adopt a resolution regarding the Content of Air Emissions Regulations to be developed by the New York State Department of Environmental Conservation (DEC) affecting natural gas infrastructure facilities;

WHEREAS, the Town Board of the Town of Somers has a principal responsibility to protect the health and safety of its residents, businesses and institutions; and

WHEREAS, the people and environment of New York have been increasingly subjected to a build-out of natural gas infrastructure, including but not limited to pipelines and distribution networks, compressor stations, power plants, combustion heating systems, metering and regulation stations, and pigging stations; and

WHEREAS, peer-reviewed scientific studies, link exposure between air pollutants emitted from natural gas infrastructure facilities and neurological, cardiovascular and respiratory disease, cancer, birth defects, and other adverse health impacts. Acute health impacts from these toxic exposures can cause burning eyes, headaches, breathing difficulty and nausea for nearby populations and can exacerbate health problems. Chronic health impacts can include certain types of cancer as well as damage to lungs, liver, kidneys, reproductive, nervous and cardiovascular systems; and

WHEREAS, the American Medical Association and the Medical Society of the State of New York acknowledge the hazards of natural gas infrastructure and associated adverse health impacts and passed resolutions in 2015 calling for Health Impact Assessments (HIAs); and

WHEREAS, the National Ambient Air Quality Standards (NAAQS) are based on average population risks across a large area over a long period of time but do not adequately address human toxicity for residents living in close proximity to natural gas infrastructure or where they are subject to episodic high exposures during events such as blowdowns; and

WHEREAS, current protocols used for assessing compliance with ambient air quality standards do not adequately determine intensity, frequency or durations of actual human exposures to pollutants and mixtures of pollutants emitted from natural gas infrastructure, noting that periodic 24-hour average measures can underestimate actual exposures by an order of magnitude; and

WHEREAS, gas infrastructure facilities can emit into the air annually hundreds of tons of pollutants including toxic chemicals and criteria pollutants, some of which are known carcinogens like benzene and formaldehyde, and can also be sources of radioactive contamination; and

WHEREAS, people who live or work in close proximity to natural gas infrastructure facilities such as compressor stations are most at risk—particularly developing fetuses, children, the elderly, and those with cardiovascular, lung or respiratory problems and other

MAY 10, 2018 – REGULAR MEETING

vulnerable subpopulations, although under certain weather and terrain conditions, these pollutants can have a wider impact; and

WHEREAS, developing fetuses and children are uniquely vulnerable to exposures as they receive proportionally greater doses of pollutants than adults and have immature organs and detoxification systems; and

WHEREAS, methane is an extremely potent greenhouse gas with a global warming potential that is 34 times that of carbon dioxide over a 100-year timeframe and 86 times that of carbon dioxide over a 20-year timeframe; and

WHEREAS, methane is the primary ingredient of natural gas and leaks at every system stage, including extraction, processing, transmission, distribution, and end-use consumption; and

WHEREAS, the New York State Department of Environmental Conservation (DEC) regulations do not currently require Best Available Control Technology (BACT) or Lowest Achievable Emissions Rate (LAER) technology for facilities that are not designated under federal Title V requirements or are not located within non-attainment areas, although such requirements could substantially reduce hazardous air emissions; and

WHEREAS, the DEC does not require the use of emission control technologies for all gas infrastructure facilities that would provide a floor of protection and could significantly reduce emissions, even when such technology has become standard practice within the industry or is readily available; and

WHEREAS, the DEC does not require continuous air monitoring of pollutants or methane in real time for gas infrastructure facilities, even though the technology to do so is now readily available, nor does the DEC require that such data be made available to public; and

WHEREAS, the DEC determines compliance with regulatory requirements and permit conditions through self-reporting by the industry without independent verification; and

WHEREAS, the DEC does not require rigorous inspection of gas infrastructure facilities to detect and eliminate natural gas leakage at gas infrastructure facilities; and

WHEREAS, the DEC lacks requirements for advanced notification of all planned blowdowns or other chemical releases, and for notification immediately following all unplanned blowdowns or other chemical releases in order for residents, public officials and first responders to take prompt emergency action; and

WHEREAS, the DEC exempts many emission sources that exist at gas infrastructure sites from regulation requirements and lacks adequate regulatory requirements for non-combustion emission sources; and

WHEREAS, the DEC does not require a sufficiently protective set of best management practices for gas infrastructure facilities to ensure protection of public health, safety, and the environment; and

WHEREAS, the DEC does not require the timely replacement or retrofit of technology and the update of site practices for existing gas infrastructure facilities to ensure appropriate consistency with requirements for new projects and adherence to current best management practices; and

WHEREAS, the U.S. Environmental Protection Agency hosts a voluntary Natural Gas Star program for partner companies to implement technologies and practices for the reduction of methane emissions and document results; and

WHEREAS, the DEC's State Environmental Quality Review (SEQR) process for gas infrastructure projects does not adequately address greenhouse gases and climate impacts; and

MAY 10, 2018 – REGULAR MEETING

WHEREAS, the DEC has announced that it intends to rewrite or revise oil and gas regulations, which can be more stringent than federal requirements;

THEREFORE, BE IT RESOLVED, that the Town Board of the Town of Somers, in the interest of protecting its residents, businesses and institutions, strongly urges the New York State Department of Environmental Conservation (DEC) to adopt the following regulatory requirements:

1. Installation and use of Lowest Achievable Emissions Rate (LAER) technology at all new and existing gas infrastructure facilities that emit pollutants into the environment, including those not designated under federal Title V requirements or not located within non-attainment areas;
2. Inclusion of non-combustion emission sources and emission sources currently considered "exempt" within the DEC regulatory framework; and
3. Installation and use of specific emission control technology, identified through the federal National Gas Star Program and elsewhere, including but not limited to:
 - Dry seals on all centrifugal compressors
 - Automatic air to fuel ratio (AFR) controls
 - Oxidation catalysts and selective catalytic reduction (SCR) on exhaust stacks
 - Vapor recovery technology for reciprocating compressors, storage tanks, and other sources of fugitive or vented emissions
 - Static seals on reciprocating compressor rods
 - Dry low-NOx burners (DLNB)
 - Low emission combustion (LEC)
 - SCONOx or equivalent technology
 - Zero-emission dehydrators and similar closed-system technology to avoid venting of gas
 - Electric or compressed air starters
 - Electric or compressed air actuators instead of gas-operated pneumatic actuators
 - Post-combustion particulate matter controls such as electrostatic precipitators, baghouses, and scrubbers
 - Interior and exterior corrosion protection, such as plastic enamel sprays
 - Electric motor compressors where applicable; and
4. Implementation of practices, identified through the National Gas Star program and elsewhere, to reduce natural gas leakage and blowdowns, including but not limited to maintaining compressors at pipeline pressure, redirecting blowdown gas to lower-pressure lines, cap testing, use of inert gases at pigging stations, and more aggressive maintenance of packing rings and compressor rods than required by existing regulations; and
5. Installation and use of air monitoring equipment at the stack, fence line, and within nearby communities to provide continuous monitoring of pollutants including toxic chemicals, criteria pollutants, ultra-fine particulate matter, individual VOCs, as well as methane in real time for all gas infrastructure facilities, with such data made readily available to the public, such as by online access; and
6. Onsite verification of compliance with regulatory requirements and permit conditions by independent registered inspectors through scheduled and random visits; and
7. Rigorous quarterly inspection by independent registered personnel with regular reports submitted to the DEC and made available to the public to detect and ensure timely elimination of natural gas leaks at gas infrastructure facilities using the comprehensive detection methods such as aerial and ground-level laser methane assessment, organic vapor analyzers (OVAs), toxic vapor analyzers (TVAs), sorbent tubes, SUMMA canisters, infrared cameras, as well as real-time monitoring

MAY 10, 2018 – REGULAR MEETING

with Fourier Transform Infrared (FTIR) spectroscopy and other remote sensing along pipelines; and

8. 48-hour or greater advanced notification to any Village Trustees/Town Board/City Council/County Legislature requesting it of all planned blowdowns, regardless of size, and other chemical releases; notification within 30 minutes of all unplanned blowdowns, regardless of size, and other chemical releases at all gas infrastructure facilities; and suspension of planned blowdowns or other chemical releases when weather conditions would increase exposure to air pollutants; and
9. Timely replacement or retrofit of technology and update of site practices for existing gas infrastructure facilities to ensure compliance with current regulatory requirements and best management practices; and
10. Chain of custody records and tracking for all industrial waste removed from gas infrastructure facilities, and
11. Strict enforcement of all best management practices and protocols for gas infrastructure facilities to ensure protection of public health, safety, and the environment; and

BE IT FURTHER RESOLVED, that the DEC, in cooperation with the New York State Department of Health (DOH), should promulgate more stringent performance requirements, including but not limited to the regulated levels of criteria pollutants, to address deficiencies in NAAQS which fail to consider human toxicity in populations proximate to gas infrastructure facilities, and any other deficiencies affecting public health, safety, or environmental protection; and

BE IT FURTHER RESOLVED, that the DOH in cooperation with the DEC should require and oversee a comprehensive, independent Health Impact Assessment (HIA) as outlined by the Centers for Disease Control and the National Academy of Sciences, incorporating the latest peer reviewed science, to be conducted by an independent public health entity and include cumulative short and long-term, direct and indirect impacts from all natural gas infrastructure components, emissions from operations including blowdowns, leaks, and spills, and a thorough analysis of the chemical emissions and radioactive contaminants, as well as their concentrations, persistence, and dispersion; and that a health registry should be established and maintained with all data available to the public; and

BE IT FURTHER RESOLVED, that the DEC should develop State Environmental Quality Review (SEQR) guidance to ensure that state agencies adequately address all cumulative impacts including but not limited to greenhouse gases and climate change during environmental reviews for gas infrastructure projects; and

BE IT FURTHER RESOLVED, that the Town Clerk of the Town of Somers shall forward this Resolution to the Governor of New York State, Commissioner of the New York State Department of Environmental Conservation, Commissioner of the New York State Department of Health, and the New York State Legislature

Westchester
Urban
County
Consortium
Agreement

The Supervisor said that the next item was a discussion with regard to the Westchester Urban County Consortium Agreement. He explained that at the work session they decided to ask the Director of Planning to obtain more information. He said that it was found that Somers had no area in Town that met the criteria for Community Development Block Grant (CDBG). The Supervisor stated that the only way around the criteria was on an individual household bases and he still did not think Somers would qualify. He pointed out the other downside was that the County would have right of first refusal on any in rem properties, the Town of Somers recently took Lake Shenorock and the 9-acre parcel by an in rem proceeding. He said that if the Town was part of the Consortium at that time they would have had to offer those properties to the County. The Supervisor said that the other question the Board asked was if that was the only time they could join, that was not the case, they could join in the future.

MAY 10, 2018 – REGULAR MEETING

Councilman Clinchy said that his issue was if they were to join the Consortium that would preclude the Town from applying for other grants. He said that was not the correct, other grants could be applied for by the Town. The Supervisor said that was not his understanding when he reviewed the Agreement.

Councilman Faulkner said that it was his opinion that the Agreement diminish some home rules and he was not in favor entering into the Agreement with the County.

Councilman Garrity said that the only positive he found was very neutral and he did not support the Agreement.

The Supervisor said that it was his recommendation that the Town of Somers not join at that point, although he thought they should reconsider the option at a future date, if it was in the best interest of the Town.

Thereupon motion of Councilman Faulkner, seconded by Councilman Garrity, it was

RESOLVED, that the Town Board does hereby authorize the Supervisor to execute the Westchester Urban County Consortium Agreement joining the Westchester Urban County Consortium.

ROLL CALL:	Councilman Faulkner	NAY
	Councilman Clinchy	AYE
	Councilman Cirioco	ABSENT
	Councilman Garrity	NAY
	Supervisor Morrissey	NAY

MOTION DID NOT CARRY

Katonah
Commuter
Parking

The next item was a discussion with regard to the extension of the Commuter Parking Agreement between the Town of Somers and the Town of Bedford. The Supervisor said that the changes to the Agreement were the number of Somers Resident Parking Spaces were decreased to eighty (80) Spaces and the duration was only for one (1) year.

Thereupon motion of Supervisor Morrissey, seconded Councilman Garrity, it was unanimously,

RESOLVED, that the Town Board does hereby authorize the Supervisor to execute a one (1) year Extension Agreement with the Town of Bedford to provide for eighty (80) parking spaces for commuters from the Town of Somers in a parking lot on the westerly side of Route 117 in the hamlet of Katonah, known as Commuter Lot #3, at no direct costs to the Town of Somers, and said agreement to expire April 27, 2019;

BE IT FURTHER RESOLVED, that the new agreement would reserve eighty (80) spaces for the exclusive use of Somers residents until July 31, 2018, at which time all unsold Somers permits would then be available to be sold by the Town of Bedford.

Vape Shop &
E-Cigarette
Law - -
Discussion

The Supervisor said that the next item on the agenda was a discussion with regard to Vape Shop and E-Cigarette Law. He said that he sent a copy of the Town of Bedford Local Law for the Town Attorney to review. He said that it looked as if they were restricting the sale of e-cigarettes in every Town Zone with the exception of one. The Town Attorney suggested that the Board consult with the Town Planner to review the proposed changes and decide what the proper Zone for the restriction to be placed. Discussion ensued with regard to the proposed change and the dangers of vaping. It was agreed that the proposed Local Law would be placed on the next agenda for consideration once the Town Planner had an opportunity to review the changes.

Award
Library
Window Bid

The Supervisor said that it was in order for the Board to add the award of the Somers Library Window Bid. He explained that the Library had additional grant money and they requested that funding be used to replace the window.

MAY 10, 2018 – REGULAR MEETING

Thereupon motion of Supervisor Morrissey, seconded by Councilman Clinchy, it was unanimously,

RESOLVED, that the Town Board does hereby award the Bid to provide and install Modern Windows – Heavy Commercial Window – HCP Series at the Somers Library, Route 139 (Reis Park), Somers, New York to Wisser Home Remodeling, 72 Grove Street, New Canaan, Connecticut 06840 in the amount of \$64,275.00 and;

BE IT FURTHER RESOLVED, that the Town Board does hereby authorize the Supervisor to execute a contract with Wisser Home Remodeling, 72 Grove Street, New Canaan, Connecticut 06840 to provide and install Modern Windows – Heavy Commercial Window – HCP Series at the Somers Library, Route 139 (Reis Park), Somers, New York.

Change Order
Library
Window Bid

The Supervisor said that it was in order for the Board to authorize a Change Order to the Library Window Bid reducing the total cost of the bid amount by \$4,411.00.

Thereupon motion of Supervisor Morrissey, seconded by Councilman Garrity, it was unanimously,

RESOLVED, that the Town Board does hereby authorize the Supervisor to execute a Change Order to the contract with Wisser Home Remodeling, 72 Grove Street, New Canaan, Connecticut 06840 to provide and install Modern Windows – Heavy Commercial Window – HCP Series at the Somers Library, Route 139 (Reis Park), Somers, New York in the amount of \$4,411.00.

PERSONNEL:

Current Vacancies:

- Affordable Housing Board (2 – 2 year terms ending July 11, 2019)
- Partners in Prevention (1 – 3 year term ending December 31, 2019)
- Partners in Prevention (1 – 3 year term ending December 31, 2020)
- Partners in Prevention (2 – 3 year terms ending December 31, 2021)

Upcoming Vacancies:

Resignation
S. Cox SEEC

The Supervisor said that it was in order to acknowledge resignation of Ms. Susanne Cox as member of the Somers Energy Environment Committee effective April 16, 2018.

Thereupon motion of Supervisor Morrissey, seconded by Councilman Garrity, it was unanimously,

RESOLVED, that the Town Board does hereby acknowledge with gratitude the resignation of Ms. Susanne Cox as member of the Somers Energy Environment Committee effective April 16, 2018.

Reappoint J.
Crawford
SEEC

The Supervisor said that it was in order to authorize the reappointment of Mr. Jason Crawford to the Somers Energy Environment Committee effective May 10, 2018.

Thereupon motion of Supervisor Morrissey, seconded by Councilman Garrity, it was unanimously,

RESOLVED, that the Town Board does hereby authorize the appointment of Jason Crawford to the Somers Energy Environment Committee to serve at the pleasure of the Town Board effective May 10, 2018.

Hire
Seasonal
Intern Court
Office

The Supervisor said that it was in order to authorize hiring of a Seasonal Intern in the Court Office. He explained that position would be paid from the Court Budget.

Thereupon motion of Supervisor Morrissey, seconded by Councilman Garrity, it was unanimously,

MAY 10, 2018 – REGULAR MEETING

RESOLVED, that the Town Board does hereby authorize the hiring of a Summer Intern in the Court Office, per memo dated April 27, 2018 from Barbara Lloyd, Court Clerk.

Promote H. Vindberg Park Foreman

The Supervisor said that it was in order to authorize promotion of Howard Vindberg from Maintenance Mechanic Equipment and Grounds to Park Foreman, Grade 7 Step 8 at an annual salary of \$70,540.00 in accordance with the CSEA contract and retroactive to April 2, 2018

Thereupon motion of Supervisor Morrissey, seconded by Councilman Garrity, it was unanimously,

RESOLVED, that the Town Board does hereby authorize the promotion of Howard Vinberg from Maintenance Mechanic Equipment and Grounds to Park Foreman, Grade 7 Step 8 at an annual salary of \$70,540.00 in accordance with the CSEA contract effective retroactive to April 2, 2018 per memo dated May 1, 2018 from Steven Ralston, Superintendent of Parks and Recreation.

Consensus Agenda

The next item on the agenda was the consensus agenda.

Thereupon motion of Supervisor Morrissey, seconded by Councilman Faulkner, it was unanimously,

Transfer Erosion Control Bond

1. RESOLVED, that the Town Board does hereby authorize the transfer of the following Erosion Control Bond to the General Fund per memo dated April 17, 2018 from Steven Woelfle, Principal Engineering Technician:

a. \$300.00 Rui Dos Santos – Erosion Control Bond – 16.06-1-30

Return Erosion Control Bond

2. RESOLVED, that the Town Board does hereby authorize the return of the following Erosion Control Bond per memos dated April 12th, April 26th and May 4, 2018 from Steven Woelfle, Principal Engineering Technician:

- a. \$100.00 Eun-Jeong Yi Aguilar Tree Preservation and Stormwater Management and Erosion and Sediment Control Permit #ATSMESC2017-03 – 38.13-2-9
- b. \$7,164.00 Keane – Coppelman Engineers, P.C. – Somers Manor Nursing Home, Inc. Site Plan Wastewater Treatment Plant Upgrade Resolution No. 2005-05 – 28.17-1-19
- c. \$500.00 Boniello Land & Realty, LTD./Boniello/RAM STAR REALTY, LLC Tree Preservation and Stormwater Management and Erosion and Sediment Control Permit #ATSMESC2016-09 – 36.08-1-74

Accept Erosion Control Bond

3. RESOLVED, that the Town Board does hereby authorize the acceptance of the following Erosion Control Bond per memos dated April 19, 2018 from Wendy Getting, Senior Office Assistant:

a. \$200.00 Realbuto – Wetland Permit – 26.16-2-1

Declare May Preservation Month

4. RESOLVED, that the Town Board does hereby declare May as Preservation Month 2018, This Place Matters, in connection with National Trust for Historic Preservation.

Transfer SEQRA/ Professional Services to General Fund

5. RESOLVED, that the Town Board does hereby authorize the transfer of the following SEQRA/Professional Services to the General Fund per memo dated May 1, 2018 from Syrette Dym, Director of Planning:

a. \$488.95 Stonewall Real Estate Builders, LLC – SEQRA Professional Service Fee – 26.07-1-21

MAY 10, 2018 – REGULAR MEETING

Councilman Faulkner said that Somers Annual Spring Town-Wide Clean Up was Sunday, April 1, 2018 through Thursday, May 31, 2018, “Official” Orange Garbage Bags and gloves were available at the Somers Town House and the Somers Library.

Councilman Faulkner said the Saint Luke’s Plant Sale would be Saturday, May 12, 2018 through Sunday, May 20, 2018 at Saint Luke’s Church.

Councilman Faulkner said that the Somers Education Foundation (SEF) was sponsoring a Harlem Wizards Basketball Game on Friday, May 11, 2018 at 7:00 PM at Somers High School.

Councilman Garrity said that the Veteran of Foreign War (VFW) was hosting an Information Session with regard to Honor Flights open to World War II and Korean War Veterans on Saturday, May 12, 2018 at 9:00AM to 9:30 AM at the Somers Town House.

Councilman Garrity said that the Westchester County Clerk’s Community Outreach was going to be at Reis Park on Friday, May 18, 2018 from 11:00 AM to 2:00 PM.

Councilman Clinchy said that Northern Westchester Hospital was holding their 2nd Annual Northwell Health Walk at Westchester to Benefit the Bruce and Andrea Yablon Cancer Health and Wellness Program on Sunday, May 20, 2018 at Franklin D. Roosevelt State Park, Yorktown Heights

Councilman Clinchy said that the Mobile Shredder was coming to Somers on Friday, June 1, 2018 from 10:00 AM to 1:00 PM at Reis Park.

The Supervisor said that there was a Color Run at Somers High School on Saturday, May 19, 2018 and all age groups were invited. He said that the Color Run was sponsored by Somers Peer Leadership and all proceeds go to St. Jude’s Children’s Hospital and Other Non-Profit Organizations

The Supervisor said that the Town of Somers Annual Memorial Day Parade and Remembrance Ceremony was Monday, May 28, 2018, the parade begins at 10:00 AM at Somers Middle School East Parking Lot with a Remembrance Ceremony immediately following at the Veterans Memorial in Ivandell Cemetery

Councilman Garrity said that the Board would like to congratulate the Morrissey Family on their new edition. He said that the Supervisors new grandson was born May 8th weighting 7 pounds, 13 ounces.

Claims for the payment of all Town Bills in the amount of \$462,887.19 were presented and allowed for payment as shown on the Abstract of Audited Claims on file in the office of the Town Clerk.

Thereupon motion of Supervisor Morrissey, seconded by Councilman Faulkner, the meeting was adjourned at 8:10 PM.

Town Clerk
