A. CONTRACT CONDITIONS

§ 1 _____ (customer) commissions the veterinarians of the Equine Clinic Lüsche (contractor) with the examination of the horse: _____

The extent of the examination is determined by the customer and specified in §10 chapter 1, chapter 2, and § 12 of this document. No examinations that have not been specified and initialed within this protocol will be included in this pre-purchase examination. The content of the examination can only be amended by written agreement.

§ 2 The examination serves as evaluation of the horse's health status at the time of examination. The examination does not constitute a declaration of defects in the legal sense. Stereotypies like weaving or crib biting, management dependent recurring airway disease, allergies, and certain diseases of the upper airway tract that can only be diagnosed after intense exercise cannot be assessed. The pre-purchase examination does not include assessment of these disorders. The examination will also not give an estimation of breeding values or a prognosis on the breeding or athletic career of the horse.

§ 3 The veterinarian is not obliged to explain the risks of all individual steps of the examination, as long as the extent of the examination does not differ from the description in this document. The customer agrees to all procedures that need to be performed during the examination. The customer guarantees that the owner of the horse also agrees to these.

§ 4 It is understood and agreed that the results of the examination may be discussed with the vendor/owner and purchaser of the horse but not with any third party. However, the customer may at his or her discretion not allow disclosure to any other party including the vendor/owner. The information included in this examination protocol is solely intended for the customer. The veterinarian needs to give his or her consent if this document is to be distributed to any third party.

§ 5 The evaluation of the obtained findings (Part C of the examination) is done with the greatest possible care of the veterinarian and reflects his or her opinion. A prediction about the future development of the health status, performance and use cannot be given, because the horse is a living animal that is subject to constant changes in constitution and condition. Only the customer can make a decision on the purchase.

§ 6 Costs for the **standard clinical examination** (excluding imaging etc.) are based on the purchase price of the horse, obtained from **the customer** personally. If the horse's price is less than **€ 5.000,-** the cost is **€ 250,- excl. VAT. If the horse's price is more than € 5.000,-, the price of the clinical exam increases by 0,6 % of the purchase price.** The customer understands that increased liability coverage is possible and will result in increased fees depending on the coverage selected. It is not possible to change the purchase price of the horse, once the examination has begun.

The customer or authorized person hereby personally confirms and is bound to the purchase price of the horse mentioned above and presented for examination.

€ _____ **Read and accepted, Signature** _____

§ 7 The contractor is liable for an amount that is not higher than that of the purchase price/value of the horse. The same liability cover applies to any person authorized in the contract. Third party liability is excluded.

§ 8 Unless there are individually negotiated terms about the limitation period, the statute of limitation is one year. This means that legal proceedings can only be initiated by the customer or other authorized person who is mentioned within the contract, within the period of one year, which starts with the initiation of the statute of limitations. The statutory period ends 5 years after the date of examination.

§ 9 The location of examination is independent of the agreed conditions and process of examination in this contract. Even for examinations outside Germany, the German legal court is the only court that is authorized to assess the conditions of this contract. This also applies to third party claims.

§ 10 Definition of Examination	Prices in € without VAT	Confirmation Signature
<p>Clinical examination following the attached protocol BJ.-B.IV. The examination price consists of a basic fee of € 250,00 plus 0,60 % of the purchase price/value if the value of the horse is more than € 5.000.</p> <p>In case the customer terminates the pre-purchase examination during the clinical examination, only the basic fee of € 250,00 will be charged.</p> <p>Examination under tack</p>	<p>250,00 € plus 0,6 % of the purchase price/value</p> <p>100,00 €</p>	<p><input type="checkbox"/></p> <p><input type="checkbox"/></p>
<p>“Doping Examination”, blood examination for foreign substances</p> <p><i>Collect blood sample and store for a six-month period (in house).</i></p> <p><input type="checkbox"/> Testing for NSAIDs, corticosteroids and sedatives</p> <p><input type="checkbox"/> FEI testing kit for shipping</p> <p><input type="checkbox"/> Express service</p> <p><input type="checkbox"/> Storage by an external laboratory</p> <ul style="list-style-type: none"> • Examination for anabolics (can only be carried out by special request and on urine or hair samples) 	<p>100,00 €</p> <p>20,00 €</p> <p>100,00 €</p> <p>41,00 €</p>	<p><input type="checkbox"/></p>
<p>Standardized German protocol of the radiological examination, 18 radiographs</p> <p>lateromedial views of all four distal limbs, upright pedal view (dorso 45°proximal-palmarodistal oblique) of each front foot, three views of each hock (0°, 45° & 135°) and 2 views of each stifle (90° and 0°)</p>	<p>18 x 23,52 € = 423,36 €</p>	<p><input type="checkbox"/></p>
<p>Skyline-Image of the navicular bone</p> <p>Special view of the navicular bone from proximal to distal. The radiograph shows the distal border of the navicular bone. There are occasions when the navicular bone looks fine on the upright pedal view (“ox-spring”), but one can clearly see changes in the navicular bone on the skyline view.</p> <p><input type="checkbox"/> left front <input type="checkbox"/> right front</p>	<p>23,52 € per image</p>	<p><input type="checkbox"/></p>
<p>Fetlocks/sesamoid bones in oblique Visualization</p> <p>Visualization of the articular surface and of the sesamoid bones in diagonal visualization; more information on the articular surface, condition of the sesamoid bones, possible “chips”/ isolated opacities</p> <p><input type="checkbox"/> left front <input type="checkbox"/> right front</p> <p><input type="checkbox"/> left hind <input type="checkbox"/> right hind</p>	<p>23,52 € per image</p>	<p><input type="checkbox"/></p>

<p>Fetlocks/sesamoid bones in AP/ Front to Back - Visualization</p> <p>Visualization of the joint space and the lateral borders of the involved bones</p> <p><input type="checkbox"/> left front <input type="checkbox"/> right front</p> <p><input type="checkbox"/> left hind <input type="checkbox"/> right hind</p>	<p>23,52 € per image</p>	<p><input type="checkbox"/></p>
<p>Back: Thoracic Spine/ Lumbar region/ Dorsal spinal processes</p> <p>Visualization of the dorsal processes from the withers to the lumbar vertebrae. In most cases, radiographs of high quality can be obtained. In horses that are very muscular or have a large amount of adipose tissue the visualization of the dorsal processes can be limited. The intervals between the dorsal processes and potentially chronic changes can be visualized.</p>	<p>23,52 € per image</p>	<p><input type="checkbox"/></p>
<p>Cervical Spine</p> <p>Visualization of the cervical spine</p>	<p>23,52€ per image</p>	
<p>Additional radiographs: _____</p>	<p>23,52 € per image</p>	<p><input type="checkbox"/></p>
<p>Chiropractic/ biomechanical evaluation</p>	<p>150,00 €</p>	<p><input type="checkbox"/></p>
<p>Evaluation of referral radiographs in written form</p>	<p>10,00 € per image</p>	<p><input type="checkbox"/></p>

§ 10 Definition of Examination	Prices in € without VAT	Confirmation Signature
Export Screening (Laboratory Dr. Böse) Country of destination: _____	Price upon request	<input type="checkbox"/>
Laboratory Examination <input type="checkbox"/> Complete blood count, serum chemistry <input type="checkbox"/> Fecal examination for parasites (McMaster-method) <input type="checkbox"/> Further examinations: _____	78,30 € 17,87 €	<input type="checkbox"/>
Andrological examination (incl. semen collection and evaluation)	201,17 €	<input type="checkbox"/>
Reproductive examination of mares incl. ultrasound examination	40,07 €	<input type="checkbox"/>
Endoscopic examination of the larynx and the upper airways Access via the nostrils and visualization of the pharynx, larynx, trachea, bifurcation of the lungs and evaluation of the main bronchi.	100,60 €	<input type="checkbox"/>
Additional examination of the respiratory system Blood gas analysis	29,68 €	<input type="checkbox"/>
Additional eye examination <input type="checkbox"/> Ultrasound <input type="checkbox"/> Slit lamp <input type="checkbox"/> Tonometry (measurement of intraocular pressure) <input type="checkbox"/> Fluorescent dye test (per eye)	53,13 € 45,56 € 30,37 € 6,71 €	<input type="checkbox"/>
Rectal examination Examination of the pelvic and abdominal organs	30,08 €	<input type="checkbox"/>
Cardiac ultrasound with "Sonodoppler" (+ time fee)	302,44 €	<input type="checkbox"/>
Ultrasound examination <input type="checkbox"/> Tendons (per leg) <input type="checkbox"/> Cervical spine <input type="checkbox"/> Back <input type="checkbox"/> Sacroiliac joint	80,22 € 127,69 € 127,69 € 127,69 €	<input type="checkbox"/>
Video recording in house (excl. if price of the horse is below € 5000, incl. if price is above € 5000)	80,00 €	<input type="checkbox"/>
Qualisys "Q-HORSE" Objective gait monitoring	120,00 €	<input type="checkbox"/>

The customer or the authorized person herewith confirms the requested services described above. The payment, in cash or EC cash, is due directly after performing the examination. Additional examinations will be charged according to the GOT (charging settlement by German law).

§ 11 The customer is obliged to pay for the radiographs and the assessment of the radiographs he or she has requested and signed for on this form. These radiographs are the property of the contractor. The customer is not obliged to release them. Copies can be obtained on request, additional costs will incur. Evaluation of other, previously taken images (radiographs, ultrasound images etc.) is only possible when the veterinarian who was responsible for these has assessed and reported them in written form.

§ 12 Special agreements/ requests for the pre-purchase examination:

§ 13 Should any clause in this contract be partially or entirely ineffective, the contract as a whole will not be affected. The examination report and its contents are subject to the laws of the Federal Republic of Germany with the exception of any conflicting standards where applicable. The German and the English texts of the examination report shall be equal. In the event of any inconsistency between the German and the English text, the German text shall prevail and is legally binding.

B. HISTORY OF THE HORSE

B. 1. Detailed history of the horse as supplied by the vendor or authorized person

Name: _____

Address: _____

Telephone/Email: _____

Persons present:

Period of ownership: _____

Previous pre-purchase examination: yes no not known Date: _____

Result:

Current training level of the horse:

Intended purpose: _____

Medication in the last 6 weeks: yes no

Medication: _____

Indication and dosage: _____ Time of usage: _____

Previous lamenesses: _____

Previous diseases: _____

Surgeries: Castration _____

Stereotypies (Weaving, crib biting, etc.): _____

Housing: Stable Pasture | Open stable Stable & Pasture

Feeding: Hay dry wet Silage

Oats Pellets Other: _____

Bedding: Straw Shavings | Other: _____

Last date of shoeing: _____ Last date of deworming: _____

Last dental examination: _____

Vaccinations: Influenza Herpes
 Tetanus Other: _____

Passport: present FEI-Passport: present

Medical adnex: present Intended for human consumption Not intended for human consumption

I guarantee that the information provided about the horse in this form is correct. I agree with all procedures of the pre-purchase examination, which include blood withdrawal for substance testing, sedation during endoscopic examination and removal of the shoes for the radiographs of the navicular bone. During the pre-purchase examination I will **be present/ not be present***

**cross out whichever does not apply*

As the current owner or authorized person, I also declare that:

- The Equine Clinic Lüsche was **not** involved with pre-treatment of the horse.
 - A veterinarian of the Equine Clinic Lüsche did treat the horse prior to the pre-purchase examination.
- The Equine Clinic Lüsche is hereby released from the professional code of conduct for veterinarians.

Mr/ Mrs _____ from _____
is authorized to represent me and sign my documents during the examination

Signed by: Owner Vendor Authorized person

City _____ Date, _____ Signature _____

B. 2. PRESENT PERSONS DURING EXAMINATION:

- Buyer Vendor Third person
-

B. 3. PLACE AND DATE OF EXAMINATION:

- Lüsche, (date) _____ or _____, (date) _____

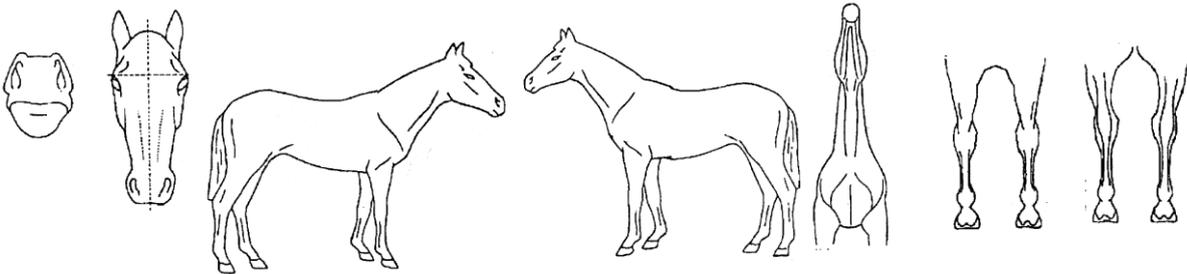

B. 4. PRELIMINARY INFORMATION STATED BY THE PURCHASER OR AUTHORIZED PERSON:

Did the purchaser test the horse prior to the examination: yes no

Any rider's remarks/observations: yes no

B. 5. DESCRIPTION OF THE HORSE:

- Not necessary if a description of the horse is available in the passport

- Identification verified by microchip reader
 No microchip

Description:

C. CLINICAL EXAMINATION

C. 1. General Examination

General:

General condition: WNL (within normal limits)

Temperature: _____ °C

Skin/ hair and significant scars: WNL

Grooming condition: WNL

Mucous membranes: WNL

Conjunctiva: WNL

Mandibular lymph nodes: WNL

Jugular veins: WNL

Heart auscultation:

Frequency:____/min

WNL

Quality:_____ WNL

Respiratory system:

Rest frequency:___/min

Respiration:

WNL

Nasal discharge:

no

Spontaneous cough:

no

Coughing reflex:

no

Larynx palpation:

WNL

Trachea-auscultation:

WNL

Trachea- palpation:

WNL

Lung-auscultation:

WNL

Eyes:

Right eye:

WNL

Left eye:

WNL

Neurological Examination:

Peripheral nervous system:

WNL

Mouth:

Incisors, rostral oral cavity:

WNL

without speculum and sedation – could not be performed completely

Feces:

WNL

Exterior reproductive organs:

Palpation & inspection:

WNL:

Further Examination:

C. 2. Examination of the locomotory system

Inspection and palpation of the limbs:

WNL

Inspection and palpation of the hoofs:

WNL

Examination with hoof testers:

WNL

Biomechanical Examination of the top line:

Neck palpation: _____ WNL

Back palpation: _____ WNL

Pelvis palpation: _____ WNL

Examination in walking on hard ground:

Straight line: _____

Specific flexion tests: _____

Other: _____

Examination on soft ground:

Lunged: with draw reins yes no

Circle left: _____

Circle right: _____

Transitions: _____

Ridden: _____

Neurological Examination in movement:

WNL

C. 3. Examination of the heart and respiratory system during and after exercise

Exercise until respiratory rate increases:

lunged ridden

1. Abnormal respiratory noise: yes no inspiratory expiratory

2. Respiratory problems: yes no

3. Coughing, nasal discharge: yes no

4. Heart and respiratory rates:

	Before exercise	After exercise	Recovery time
Heart rate			
Respiration rate			

C. 4. Radiological examination:

Referral images: veterinarian / date: _____

	<p>Standard projections (according to the German radiological guidelines of 2018) Radiographs, which do not show any divergence from the normal radiological anatomy, are labeled with w.n.f. (within normal findings) and they do not need to be referred.</p> <p>Radiological findings:</p> <p>A-Radiological findings, by which the risk for a lameness cannot be estimated reliably. B-Radiological findings, which are correlated with a risk of lameness. They are labeled in the list of findings as risk.</p>
1.	Hoof left front 90° (lateromedial with the beam focus on the navicular bone)
2.	Foot left front (lateromedial with the beam focus on the fetlock joint)
3.	Foot left hind (lateromedial with the beam focus on the fetlock joint)
4.	Hoof right front 90° (lateromedial with the beam focus on the navicular bone)
5.	Foot right front (lateromedial with the beam focus on the fetlock joint)
6.	Foot right hind (lateromedial with the beam focus on the fetlock joint)
7.	Tarsus left hind 0° (dorsoplantar)
8.	Tarsus left hind 45° (DLPMO = dorsolateral-plantaromedial oblique)
9.	Tarsus left hind 135° (DMPLO = dorsomedial-plantarolateral oblique)
10.	Tarsus right hind 0° (dorsoplantar)
11.	Tarsus right hind 45° (DLPMO = dorsolateral-plantaromedial oblique)
12.	Tarsus left hind 135° (DMPLO = dorsomedial-plantarolateral oblique)
13.	Stifle left hind 90° (lateromedial)
14.	Stifle left hind 180° (caudoproximal-craniodistal)

D. ASSESSMENT OF THE EXAMINATION RESULTS

We cannot assess stereotypic behaviour!

- Preliminary report filled out by vendor
- Based on today's examination, we see no increased risk for the intended use of the horse

Radiographic examination:

The customer or authorized person confirms acceptance of the terms of the examination contract. The findings described herein and the implications in terms of use of the horse have been explained. The undersigned warrant that they have permission of the horse owner to sign for the examination results and specify purchase price of the horse as in § 6 & § 7 of the contract.
