

Concept

An adaptation of Trueing's original #3000 Mirror, this updated version is rendered in warm walnut. Crafted with an enlarged and revised terrazzo pattern, mirror segments stand in for marble, resulting in a restrained, yet distinct effect.

Form & Function

Attached to the wall with a series of integrated keyhole slots, the mirror can be hung either vertically or horizontally.

Customization

The size, shape, mirror color and wood type can be customized. As shown: walnut with clear mirror.

Materials

Walnut, Mirror
