

1989 - Omega Security Systems was founded by Directors Richard & Sherry Ward. The company developed from domestic to commercial security solutions including access control, CCTV & alarm installations.

2006 - Omega became a limited company.

In 2010 we began installing turnstiles. This ensured that we could provide a full service to our customers; installing the security systems, turnstiles and gates.

2016 - Omega recruited Simon, a KTP (Knowledge Transfer Partnership) associate, with the aim of developing new products whilst also allowing the company to extend the customer reach to new sectors.

In 2017 Omega updated their ISO accreditation to ISO 9001:2015. We are now working towards ISO 14001.

In 2018 Omega expanded its HQ within Crown Works with new staff coming on board.

Over the years, the staff number has increased dramatically, from two when we first began to now having a team of over 20.

2008 - We became NSI Accredited which changed from Silver to Gold in 2009. To this day, Omega still holds the highest level NSI Gold accreditation.

As the company grew the need to move to a larger facility was required. Omega moved to Crown Works in 2013.

2016 - Omega Security's sister company Omega Analytic Systems was founded, with their flagship product, **OA+C system**.

2017 - Omega became DHF accredited.

2018 promises to be a big year for Omega with the completion of the KTP, the development of our new 7" touchscreen keypad and the integration of facial recognition systems.
