

## SKILLS

### UX/UI Design

Sketching  
Wireframing  
Rapid Prototyping  
User Research  
Usability Testing  
Storyboarding  
Competitive Analysis  
Conversational UI Design  
Tangible Interaction Design  
AR/VR Design

### 3D Design

3D Modeling  
Rendering

### Language

English  
Chinese

## TOOLS

### UX/UI Design

Sketch  
Adobe Creative Suite  
Keynote

### 2D/3D Prototyping

Principle  
Invision  
Omnigraffle  
Solidworks (Certified)  
Unity

### Data Visualization

Tableau  
Processing

### Programming

Xcode  
HTML

## EXPERIENCE

### Lead UX Designer - YUNDONG.AI | Aug 2018 - Now | Remote

- Design user flows and interfaces for photo viewing and editing process on web and mobile platforms; Partnering with engineers for implementation.
- Collaborate with the product team on designing in-app messaging function with goal to increase monthly users from 100k to 300k.
- Refine user interaction and page transition within the design framework.
- Lead the usability testing to validate design changes before app update.

### Graduate Student UX/UI Designer - HTC | Jan 2018 - Aug 2018 | Seattle

- Created visual design specifications for VR and different fidelity mockups.
- Built 3 cost-effective prototypes to simulate VR environment for user testing within two weeks.
- Worked with 2 designers and 1 engineer to build a VR environment controlled by users' brainwaves using brain sensing device and HTC Vive.

### Product Designer - Roadsun Vehicle Design | Aug 2017 - May 2018 | Seattle

- Redesigned and prototyped the interface on electric vehicle dashboard; increased 45% in user movement speed and 32% in action accuracy.
- Led the design of remote-controlled autonomous experience from process flows, wireframes and prototyping to user testing and validation.
- Conducted user research and partnered with PMs to generated the design feature roadmap for the next 5 years.

### UX & Industrial Designer - Electrolux | Jul 2016 - Jun 2017 | Charlotte

- Built 15 interface mockups and 4 prototypes for oven control panels; 2 of them were selected as the design direction by global design teams.
- Designed and rapidly prototyped conversational user interface with multidisciplinary teams on future Alexa enable appliances.
- Filed 7 design and utility patents on food preparation appliances.

### Visual Designer - Ohio State University | Sep 2014 - May 2016 | Columbus

- Created over 100 multimedia materials for 27 university events.
- Redesigned website for communication department which increased monthly visitor by 17%.
- Worked with 12 departments to create over 84 design templates for marketing under the university branding guidelines.

## EDUCATION

### University of Washington | Sep 2017 - Aug 2018

Master of Human-Computer Interaction + Design

### The Ohio State University | Sep 2011 - May 2016

Bachelor of Science in Industrial Design
