<tr>

<td></td>
</tr>
</tbody>
</table>
Over time, the Impact Tables should build on the landscape findings by exploring deeper questions

**Deeper questions to explore building on the landscape findings:**

- Are similarly-focused initiatives coordinating on their efforts?
- Are they measuring things the same way? Where can similar initiatives start to use the same measures (if they aren’t already)?
- Are they sharing data?
- Are they holding duplicative meetings? Making duplicative investments?
- Are they sharing best practices?
- What common needs do these initiatives have that could be addressed by the Impact Table, JPA, or the Oakland Thrives Leadership Council (e.g., research/data, evaluation support, institutional policy or practice changes, resources for collaborative activities)?
- Across Oakland, are resources being used optimally to maximize impact and population coverage?
- Where are the gaps – what issues are not being addressed?

OAKLAND CITYWIDE DASHBOARD INDICATORS
IMPACT TABLE THEORY OF CHANGE – SAMPLE TEMPLATE
EXAMPLE THEORIES OF CHANGE
The JPA and Oakland Thrives Leadership Council have developed a common agenda to guide their work.

Oakland’s children, youth, and families are the healthiest in the nation

Justice and equity has been achieved in physical and mental health, education, wealth, safety, and housing regardless of race, ethnicity, income, gender, sexuality, disability, geography, and other common predictors of disparity.

**Goal Areas**

- **Vision**
  - **Health**: Children and youth are physically, socially, and emotionally healthy.
  - **Education**: Children and youth thrive in school and are prepared for college, career, and community success.
  - **Wealth**: Families are economically stable and youth succeed after high school.
  - **Safety**: Families live in safe, vibrant communities.
  - **Housing**: Families have quality, affordable, stable housing.

**Principles**

- Equity-focused
- Community-inclusive
- Disruptive of the status quo
- Results driven
- Empathetic to individual experiences
- Consensus-oriented
- Oakland proud
Together, we established long-term indicators that will be the “north star” to chart progress over time.
