

NETCOM SL TECHNICAL FURNITURE

IDEAL WORKSTATION

NetCom SL by e-Systems Group is a complete workstation system with enough flexibility for today's dynamic technology environment. This versatile workstation is engineered to make reconfiguring and expanding your workstation simple while keeping your costs to a minimum.

EFFICIENT USE OF SPACE

All NetCom SL frames are available in 24", 36", 48", and 72" widths providing a limitless array of workstation design options. The unique Expansion Frame lets you extend your system without the need for additional support uprights that take up valuable space.

ADJUSTABLE STEEL SHELVES

As a standard feature, all shelves are tilt adjustable from 0 to 10 degrees providing ergonomic viewing angles for equipment. Shelves easily hold 400 and up to 850 lb with additional support brackets.

SUPERIOR WEIGHT CAPACITIES

NetCom SL's weight capacities are unsurpassed by current industry offerings. All units provide a weight capacity of 2650 lb and 36" deep worksurfaces have a weight capacity of 400 lb.

INTEGRATED CABLE MANAGEMENT

Accessible from both the front and the rear of NetCom SL, horizontal and vertical cable management is built-in to every Frame Upright & Side Panel (right).

With NetCom SL you can choose from a combination of 24", 36", 48", and 72" modules including Base Units, Standard Workstations, Expansion Frames, Corner Units, and accessories to build a system perfectly suited to your requirements. The units are available in 84" (standard) as well as 48", 60", and 72" for the ultimate solution to various work environments.

COMPATIBILITY

- All the units work together to simplify system configuration and modification over time as your needs change.
- Base Units give you the ability to customize steel frames by selecting all the components you want to add.
- Standard Workstations are fully functional as stand-alone workstations and in combination with Corner Units and Expansion Frames when you want to extend your system.
- Removable Side Panels are easily redistributed to the ends of your new configuration as you expand multiple unit systems.

STEEL FRAMING

- All Units are 84" high (standard) and feature steel framing. Frame heights of 48", 60", and 72" are also available.

Base Unit

- The Base Unit is available in a 24", 36", 48", or 72" wide Steel Frames with removable Side Panels.
- With the versatile Base Unit, you can customize your system any way you like by adding Storage, Shelving, Cable Management and Worksurface space.
