

# EGYPT: THE POTENTIAL OF NEW ENERGY VEHICLES

Transportation accounts for half of Egypt's greenhouse gas emissions.

Could a move to ecars be an easy and inexpensive solution?

## In Egypt

**50%** OF CARBON EMISSIONS COME FROM TRANSPORTATION

**45/1000**      **129/1000**

**EGYPT**

**LIBYA**

MORE AUTO DENSITY IN LIBYA THAN EGYPT; ROOM FOR GROWTH

**40%** OF EGYPT'S CARS ARE IN TWO GOVERNATES: CAIRO AND GIZA

**#133**

EGYPT IS RANKED BEHIND IRAQ #37 AND EVEN SYRIA #121 FOR VEHICLES PER CAPITA

## How to Promote Ecar Usage

Reduce tariffs on the import of ecars

Attract joint venture investment

Build Infrastructure for charging stations

Provide subsidies for ecar purchases
