Backend Developer

We're looking for a **Backend Developer** to join our agile team in Porto!

Who are we?

We develop high performance, big data, low latency systems for online marketing. We are an international company with offices in the US, Germany, Denmark, and a development team here in Portugal.

The Porto team is made up of a diverse set of folks from multiple backgrounds and expertise. If you want to know more, check out weirdmath.com.

What are we looking for?

We’re looking for someone that’d **love** to be responsible for:

- Developing and maintaining our services (backend and middle-end)
- Analyzing and designing software architectures that meet the actual business needs
- Writing simple and maintainable code capable of processing large amounts of data

It’s awesome if you:

- Have a strong IT background (Software Engineering or Computer Science)
- Are so comfortable with object-oriented programming that you can do it with your eyes closed
- Think that these technologies are a breeze:
  - .Net
  - Git
  - Powershell
  - Great to Have
  - Nice to Have
- Aren’t afraid of microservices
- Enjoy performance and low-latency challenges that require crazy-fast code
- Speak and write English easily (but we’re not looking for Shakespeare)
- Have a thirst for knowledge and how things work
- Are a little bit pedantic about clean code

What we can offer:

- Great and **flexible** working conditions
- Competitive salary with lots of benefits
- Chance to work on a leading-edge project
- Work right in the center of Porto (close to public transport)
- And all the other usual things – work from home, free snacks, team activities, **beers in the fridge**, and FIFA
