Experience

Electronic Arts | 2018

Experience Design Intern

As part of the cross-functional EAX team, I focused on improving players experiences across all EA platforms. I primarily focused on UX research, UI design and interactive prototyping.

Spork Labs | 2017 – 2018

Lead Designer

I worked with a team to create web based applications for a variety of different clients. My role included User Research, UI Design and Client Communication.

Freelance Designer | 2016 – Present

Designer

I have had the opportunity to work with a variety of clients on projects including website & app designs, branding and design critique.

Vice President | Sheridan Interaction Design Association

I am responsible for the organization and direction of 3 executive teams. In partnership with the president we have established a variety of different initiatives and events for the program.
