

Dear Clay County Resident:

Due to unprecedented labor shortages nationwide and here in Clay County, we have made the difficult decision to **suspend** Recycling Collection Service starting **MONDAY, AUGUST 16** in order to dedicate our limited resources to the collection of Garbage and Yard Waste.

In the interim, you may bring your **Recyclables** to a **Clay County Convenience Center**, or items can be disposed of on your regularly scheduled garbage collection day. For Convenience Center locations, and information about additional temporary drop-off locations, visit www.claycountygov.com/community/garbage-and-recycling/facilities.

While **Waste Management** works diligently to mitigate service disruptions, you can stay informed by visiting www.wm.com/us/en/mywm/notifications.

After all services have been reestablished, a financial impact review will be conducted.

Thank you for your patience during these challenging times!

Sincerely,

Your Clay County Waste Management Team
