

REBEKAH'S ANGELS

foundation

Sponsorship Packet

Rebekah's Angels is a 501(c)3 non-profit organization that was established to provide resources and funding for children ages 18 and under with PTSD (post-traumatic stress disorder) due to trauma. Every year, there are over three million cases of PTSD in children reported in the United States, and little to no financial assistance available for the costly treatment. Rebekah's Angels will work with therapists across the country to finance the treatments that children with this debilitating condition desperately need.

REBEKAH'S ANGELS

foundation

Dear Friend,

On April 15, 2013 my five-year old son and I were three feet away from the first bomb that detonated at the Boston Marathon. Although Noah miraculously walked away almost unscathed, the emotional aftermath has been far worse than any of the physical trials either of us have endured as a result, including the amputation of my left leg below the knee. Fortunately, with proper PTSD treatment we have seen Noah thrive to be a happy, healthy fifth grader.

It has become our family's passion to not only educate people on what PTSD in a child looks like, but most importantly, provide financial assistance to those who are suffering.

Each year...

- there are over 3 million cases of PTSD reported in children by Child Protective Services alone.
- many go untreated since there are little to no financial resources available to help with the high cost of therapy treatment.

Childhood PTSD leads to major problems including but not limited to...

- substance/drug abuse
- depression
- violence
- suicide

Therefore, we were inspired to create Rebekah's Angels so that together we can change these horrifying statistics by providing the financial assistance needed for therapy, medications, and service dogs.

On February 20th, 2018 we will have our official launch for Rebekah's Angels Foundation by hosting our black-tie gala at The Corinthian in Houston, TX. Our hope is that you will join us in our dream to partner with families and health professionals across the US to provide these vital resources for those who cannot afford it.

Enclosed you will find an outline of sponsorship options along with the benefits afforded to each level. Please consider becoming an angel yourself by taking advantage of this sponsorship opportunity and/or donating a silent auction item to help make this launch party a success. Rebekah's Angels thanks you for your support, as well as your willingness to join us in giving these children new hope, for a brighter future.

Warmest Regards,

Rebekah Gregory
Founder/President
