

Forest School Interest Application

Forest Schooling is an outdoor alternative to traditional indoor schooling. Nature offers a rich and ever-changing curriculum, and the perfect classroom for children to continue to grow to be lifelong learners. We use the Reggio Emilia approach to support children's curiosity and imagination, while being mindful of state standards. We are a New York State licensed child care facility and an outdoor alternative to traditional indoor schooling.

Forest School is a sub division of our Forest Preschool for children 4-6 and is not a private school.
