

CLAYFORNIA

Scavenger Hunt

Come visit the Garden to explore the fantastic artwork displayed in the *Clayfornia* exhibit up through April 18, 2021. Can you solve these riddles to find the locations of the sculptures? Put on your detective hat and see how many you can find!

- Under the trees near *Wildlife Pond*
A creature of whom gardeners are fond
Look for an animal that's black and white
One you'd know more by smell than sight
- Find a *Cultivar* of an unforgettable
often oven-baked vegetable
This one you won't want to eat
Or you might just break all your teeth
- In a place to look at art *Outdoors*
There is a secret maze to explore
You won't be lost, so please don't worry
It's just the right size for spiders to scurry
- Near a *Cultivar Garden* gazebo
There's a place under the trees to go
Find an animal that likes to burrow and hop
In the shade is a good place to stop
- Under shady redwood trees
Across a river of strawberries
In the *Cultivar Garden* you won't want to miss
An animal there who loves cheddar and swiss
- Along a path near *Reflecting Pond*
A place nearby, just a bit beyond
An creature leans against a tree
With a curly tail and a snack on his knee
- In the *Cultivar Garden* a scene from far away
A predator sits and listens for her prey
She is sleek and her coat is smooth
She waits for her prey to make a move
- Whoooo's that keeping watch at the *Pond*?
Keep an eye out before the day has dawned
With a silent swoosh, they may fly
as they search for prey, from the night sky
