

Dear Parents,

As you prepare to send your children to study in Israel, we are proud to offer you The ADO Plan - The American Dental & Orthodontic plan. As a parent myself, I understand that you may have many concerns when sending your child abroad. The ADO plan provides the students with reliable dental and orthodontic care throughout their stay in Israel.

Over the years, we have noticed that students coming to Israel for the year are likely to face unexpected dental issues. Aside from impacted wisdom teeth and Orthodontic follow up treatment that is typical for their age, the lower fluoride levels in the water and higher sugar content in the food contribute to a greater chance of tooth decay.

The most important part of maintaining long term dental health is prevention and timely treatment. All members in the ADO plan are entitled to preventative care and follow up with the best dentists in the country throughout their stay in Israel. All dental needs will be cared for by highly skilled dentists and specialists in state of the art facilities with American customer service. In this way, they enjoy the immediate oral health benefits of high quality care, and they establish a comfortable relationship with our office that they will be likely to take advantage of quickly should any other dental issues arise.

The ADO plan offers 3 affordable dental and orthodontic plans. For less than \$200, participating students will have convenient access to the highest standards of dental care for the entire year. We believe that this affordable plan is a valuable investment in the long term dental health of your child.

Please visit our website, www.theadoplan.com for more details about the benefits of our plan and sign up today! You may use the enclosed application or sign up on line. With the ADO plan, you can rest assured that your children will have a dental carefree year, another reason for them to have happy and healthy smiles throughout their stay in Israel.

Looking forward to greeting your child in Israel,

Dr. Edo Lavi
