

Get EPA 608 Certified!

Pontotoc Technology Center | Business & Industry Services

Basic HVAC

Basic HVAC: 100 Hours

Basic HVAC, Controls, Refrigeration & Heating, Recovery and Charging

The objective of this course is to provide interested individuals the basic knowledge to obtain a position with a contractor to perform work in the Heating Venting and Air conditioning fields. Providing our students with the basic knowledge in safety, tool identification and use, system recognition, basic controls systems, pipe fitting, air duct and distributions system maintenance and repair. As a baseline students will learn skills in math, electricity, and customer communications. The course includes: Controls, Heating and Refrigeration, Leak Detection, Evacuation, Recovery, and Charging of systems. The course will provide EPA 608 certification.

Course Cost: \$1,200
