

## **Intellectual Property, Technology and Internet Law**

**As technology advances, so does the complexity of intellectual property, technology and internet law. We assist local and national businesses in providing solutions that address the legal needs of the 21st century.**

At Watanabe Ing, our attorneys possess a specialized blend of qualifications, experience and skills required to effectively and efficiently provide solutions to these challenges.

Our clients include Internet service providers, e-commerce businesses, start-ups, technology companies, athletes, authors, musicians, publishers, serial entrepreneurs, resorts, health care providers, computer consultants, web designers, TV, radio stations, and include businesses on the U.S. mainland and foreign IP consultants.

The following is a sample of the areas in which our team has successfully assisted clients:

- Copyright, Trademark, Trade Name, and Patent Registrations
- IP Due Diligence in Mergers and Acquisitions, Domain Names and E-Commerce
- Software and Content Licensing
- Trade Secrets and Confidential Information
- Website Privacy and Terms and Condition Policies
- Defamation and Online Reputation
- Invasion of Privacy
- Anti-Cybersquatting and Takedowns
- Copyright, Trademark, and Patent Infringement
- IP Portfolio Review
