

Labor, Employment and Employee Benefits

Today's employers face ever-increasing exposure under current labor and employment laws.

At Watanabe Ing, we believe that an employer's best defense against this exposure is to practice "preventive labor law". From hiring to firing, we counsel employers - large and small, unionized and non-unionized - on effectively and efficiently managing issues in their workplace. Our unique understanding and experience places our clients in the best possible position, both in and out of court.
