

Concrete Masonry

ARCHITECTURAL CMUs

Architectural CMUs

Durable, reliable building blocks manufactured regionally and serviced locally.

Performance Upgrade Options:

CO₂vert™, InsulTech™ System, Filled & Polished

Architectural CMUs provide a durable foundation and solution to commercial projects. Our CMUs are available in numerous finishes and colors to give architects and builders design versatility. Specific styles, colors and finishes are dependent on local availability. Most architectural CMUs are produced with integral water admixture to repel moisture and resist mold and pre-consumer recycled content may be added to help meet sustainable goals.

Features & Benefits

- Durable with design freedom
- Available in many colors and sizes
- Manufactured locally
- One step installation
- Available with pre-consumer recycled content

Smooth Face

Our standard CMU may be used in a wide range of applications. It is strong, durable and gives you the energy efficient, fire resistant and sound dampening qualities required by today's building codes. Gray as well as integrally colored pre-finished architectural concrete blocks are available in numerous colors which may include pre-consumer recycled content and integral water admixture to repel moisture and resist mold.
