

Flat Tank - Above ground, plastic waste tank

Tough,
lightweight,
flexible.

Why bury your waste collection tank?

The ideal, flexible solution to collect waste from your shepherd's hut, glamping pod, log cabin, campsite and/or static caravan. When ground conditions won't allow you to bury a tank (e.g. due to tree roots, high water table, proximity to a water course, SSSI etc.); when planning permission is not forthcoming or when you don't (yet) want to fix the position of your glamping site, our low profile tanks really fit the bill!

Available in 3 sizes: **500, 750 and 1,000 gallons**

Technical Advantages

- Built in lifting handles and sling points
- Individual, non-removable serial number for traceability
- Non-removable, high contrast instructions and warning signs. In-mould graphic is permanent
- Sloped upper surfaces to drain off rainwater
- Sealed access ports protect against spillage and odour
- Increase volume by linking several tanks together to extend the period between waste pump outs
- Linkable in two directions: side-to-side; nose-to-tail
- Stackable, rust-free, hygienic - flexibility guaranteed

Applications

- Glamping sites
- Log cabins and static caravans
- Shepherds' huts
- Cesspool for camping toilet waste

Upgrade Kits

- Expand capacity by linking side-to-side or nose-to-tail
- High waste level alarms (wireless and tank-mounted)
- Elsan® Tipping Point add-ons
- Tank Odour Trap and perfumed additives
