

Elsan® Tipping Point - ideal for chemiloo waste

Toilet waste tipping... made easy

This purpose built add-on is the ideal solution to allow the easy, spill-free disposal of chemiloo toilet waste into a suitable receiving tank, all from a convenient height. Positioned on the tank inlet, it will be crystal clear to users where they should tip their waste from camp, caravan and boat toilets. **Waste control without any fuss.**

Applications

- Camping / glamping / caravan sites
- Leisure boat marinas
- Catering outlets in remote locations
- Municipal waste tips: waste oil disposal etc.
- Wherever there is no mains sewer connection and where waste needs to be safely tipped away to a waste collection tank with no spills

Features

- Removable lid for simple use and effective sealing between uses
- Complete with DN100 expanding seal to allow secure fitting to tank
- Convenient height. Rest waste tank on upper rim and tilt to empty: helps avoid spillages

Operation:

Simply remove the lid and tip your chemiloo waste down the chute. When done, replace the lid. The 110mm diameter pipework directs the waste into the tank and controls splashing.
