## EXPERIENCE

### Suitsupply - UX & UI Designer

November 2015 - Present

Suitsupply is one of the leading fashion tech company. We are trying to reduce the gap between off-Line and Online shopping experience. I am involved in all aspects of the web products, from brainstorming and defining requirements with POs, to designing interface, graphics, and even create a working prototype to communicate with developers.

### StartMonday - Visual Designer

February 2015 - October 2015

StartMonday is a Startup company based in Amsterdam. We are creating a job search platform via Video. I was the only designer in 20 team members. This was a chance to work on many different types of projects including Web, App and even Marketing. My primary focus was in the Visual design space, working on UX, UI for the native app and create brand Identity with CEO & CTO directly.
