

Digital Membership options for 2020-21

The Skills Builder approach is already being used in hundreds of primary schools, secondary schools, special schools, and colleges. Our resources are developed by our team of teachers to explicitly teach and apply the eight essential skills, as outlined in the Skills Builder Universal Framework.

Through Digital Membership with Skills Builder your school or college can start to embed a comprehensive approach to building students' essential skills. There are two options for Digital Membership in 2020-21, both of which include:

- ✓ Full access to a suite of resources to build and assess essential skills through the Skills Builder Hub
- ✓ Exclusive access to monthly webinars to maximise impact and support colleagues
- ✓ Ability to add multiple teachers, see each other's classes and monitor groups' progress
- ✓ Access to online teacher training modules aligned to the Skills Builder Principles of best practice

Digital Basic

2020-21

Access to resources for 4 extended Projects or
1 Challenge Day (options to add on more)

Digital Unlimited

2020-21

Unlimited access to all our resources, including
24 extended Projects & 17 Challenge Days

↙ *What do you get?*
