

WORK EXPERIENCE

NueMD / dec 2016 - Present

UI/UX Designer - Georgia, USA

Designing smart user interfaces, paired with intuitive user experience, that require minimal learning effort, by using well established human computer interactions. This enabled us to accommodate the needs of our constantly growing client base, enrolling 48 new practices within 10 months.

General Motors Sponsored Project / 2015

Industrial Designer & Event Manager - Georgia, USA

Our team designed a fun and engaging drone concept for future Chevrolet vehicles. We focused on user centered design to evoke a deep connection with the brand and enhance the consumer experience.

Spartanburg Steel Products Internship / 2015

Engineering Intern - South Carolina, USA

Optimized die layouts for the 2016 BMW X6, used CAD model overlays to identify engineering changes, and created manufacturing & tooling cost quotations sheets to maximize revenue.

Dynacraft Sponsored Project / 2014

Industrial Designer & Model Maker - Georgia, USA

Our team developed an all new interchangeable chassis platform for kids ride-on's, allowing parents to switch car body styles. Our product became a bestseller at Walmart and won the 2017 European Product Design Award.

Spartanburg Steel Products Internship / 2014

Industrial Designer & Project Managing Intern - South Carolina, USA

Designed solutions to streamline manufacturing processes based on cycle time analysis and calculations, saving the company 2.5 hours per shift.

Golf U's Summer Job / 2013

Sales Representative - Illes Balears, ES

In charge of sales, stock ordering and replacement, as well as club fitting and understanding customer needs to provide appropriate advice.
