

# Contour

## General Information

- ❖ The front build-down strip is solid kiln-dried hardwood to resist moisture around sink and over dishwasher where steam escapes.
- ❖ On the front roll and the backsplash there is a 5/8" radius which provides a smooth conventional design.
- ❖ The cove has a 1/4" radius for easy clean-up.
- ❖ The back has a 1/2" scribe to provide easy fit for out-of-square or uneven walls, allowing for more installation tolerances.
- ❖ Special width bars and tops are available upon request.
- ❖ Loose backsplashes are available for deck tops.
