

DANIEL

Designer objects for everyday ceremony

DANIEL places a conscious lifestyle at the centre of its creative approach.

Each piece is imagined to fit into a ritual of its user and incite taking the time to appreciate the moment.

To compose a harmonious interior, our products all share the same aesthetics: abstract shapes, well-balanced lines and organic influences.

Within this label, named after an artisan, we bring together designers and manufacturers who share this philosophy to offer meaningful pieces for a hedonistic audience.

MIRAGE

Design by ARNAUD DESVIGNES

Made from a single sheet of mirror-polished stainless steel, this piece is thin, has no frame, no extra layer. This mirror challenges our sense of sight and that is why we named it Mirage, because you can't help but question what you see at first. In use, you will like the soft sandblasted back and the clean edges.
