

Do you prefer to see breadcrumbs as a progress bar or as a dotted path?

Would you prefer to see a profile picture next to a gas station employee or a line of text?

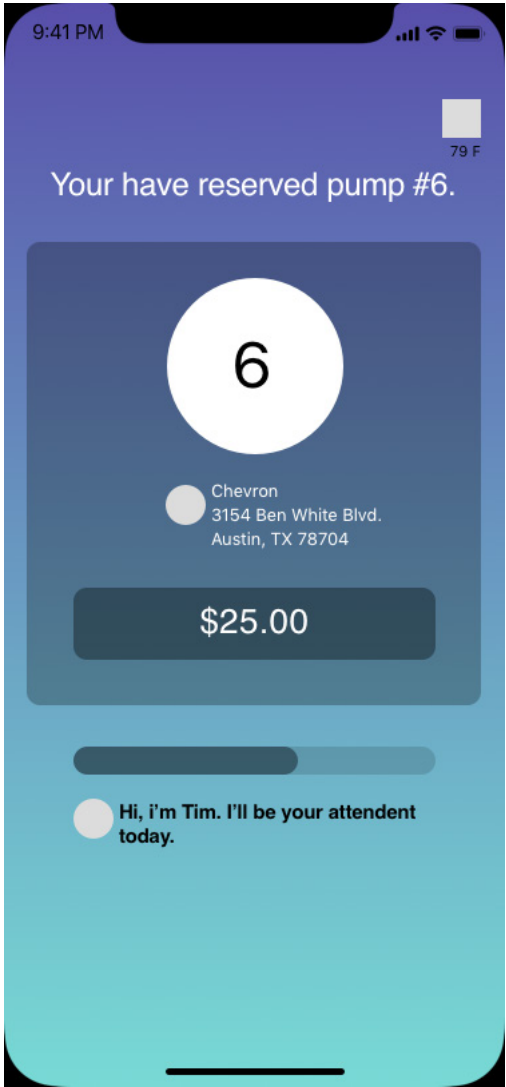

Would you prefer to see a live map of your destination or a static location of your destination?

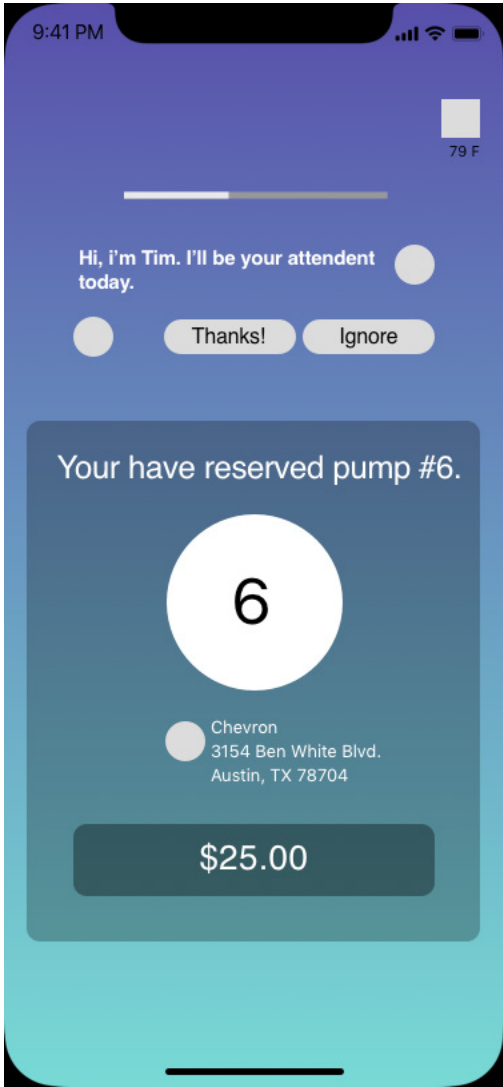

Would you prefer to your conversation with an attendant at the bottom of the screen or the top?

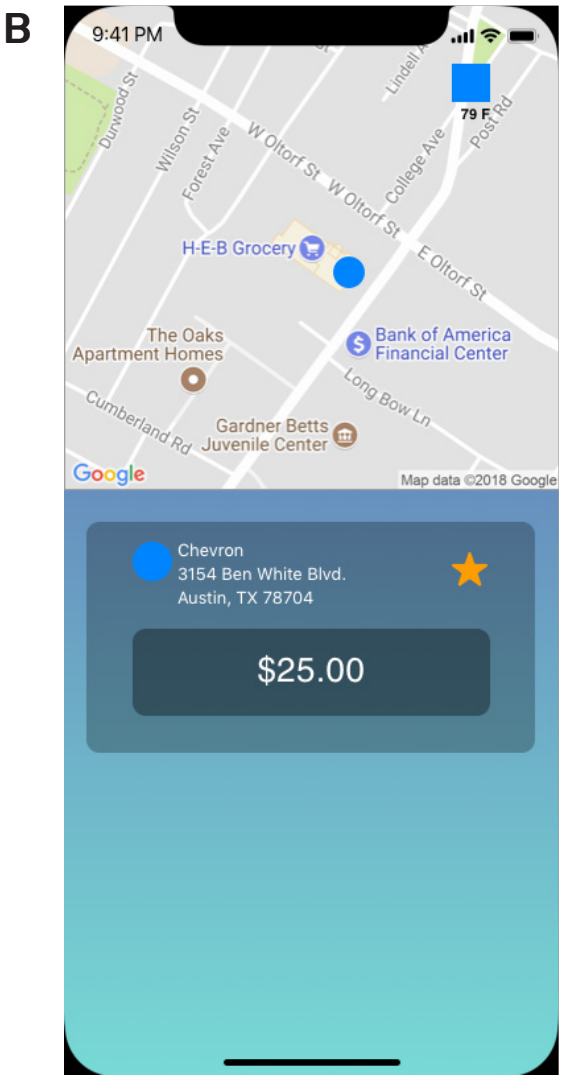

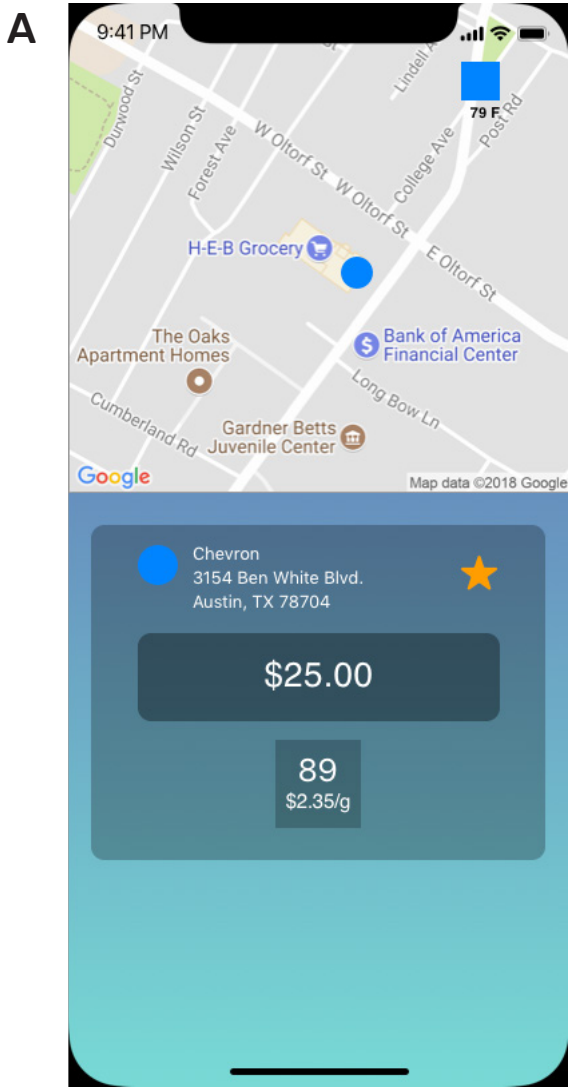

A

B

If you have set this gas station as a “favorite” in your settings, would you prefer to see the type of fuel you are purchasing?

Which interface would you rather be prompted with after initiating the application through voice.
