

Comprehensive Care Management Service Line Offerings & Pricing

Health care & quality of life needs are unique to every individual. One size does not fit all. We encourage our clients to join the comprehensive care management monthly service which provides continuous support. This approach maximizes the quality, safety, & continuity in your care for the short and long term. It can be difficult to determine which package to initially purchase. This is why we prefer to complete the comprehensive care management assessment first. Upon completion, we then assist you in determining what level of care is best suited for you or your loved one.

Discounts

Veterans receive a 10% discount with a maximum savings of \$500/year

AARP members receive a one-time discount of \$100

Couples will receive a one-time 20% discount if the assessment is completed at the same time in the same household
