

Android Developer (m/f)

As of now we are looking for a highly motivated member to boost TeleClinic. Our goal is simple: Revolutionize the way people experience healthcare!

BACKGROUND

Healthcare is expensive, time consuming and inflexible. Let's change that! We took the responsibility to create a platform that connects all of the parties involved, bringing together patients, doctors and insurers. We went one step further by trying to provide patients both reactive and proactive ways to keep healthy. For this, we are looking for a talented Android developer who wants to boost TeleClinic.

YOUR CHALLENGES

You want to bring the doctor to the patients' home? You are keen on applying state of the art mobile technologies in a real world scenario?

More in detail your tasks will be:

- Build advanced world-class native apps for Android platform.
- Work in a cross-functional and self-organizing team closely with backend developers.
- Work closely together with our designer and developers to create the best possible User Experience
- Work on exciting new technologies and experiment upcoming technologies e.g. OCR, WebRTC, and medical sensors.

WHY JOIN TELECLINIC?

- Be part of a cross-functional and highly motivated team
- Continuous learning and consultation from experienced developers
- Possibility to travel and join tech conferences
- Agile working style
- Competitive salaries
- High responsibility right from the start
- Free snacks and coffee

YOUR PROFILE

- Bachelor's or Master's degree in Computer Science or equivalent
- You have profound knowledge and experience regarding Android-Applications
- You are best friend with JAVA and interested in Kotlin and new technologies
- You have experience and understanding in Reactive Programming.
- Experience in technologies and libraries such as Retrofit, Lambda Expressions and Room are a plus.
- You are eager to be involved in the problem solving process and adopt the product you are working on.

YOU ARE THE PERFECT MATCH FOR THIS POSITION?

Please send your CV or GitHub profile to jobs@teleclinic.com
