

WATER BOWSERS

The high quality, low cost water storage tank solution.

Are you still using IBC water cubes for your water storage solution and contaminating your water supply with a build-up of algae?? **It's time to replace the old with the new!**

- Horizontal **1000L** or **2000L** water storage tank
- UV protected
- Water Regulations Advisory Scheme (WRAS) approved
- Made from a seamless potable approved polymer material
- Provides a cost effective water storage tank solution
- Designed as a one piece moulding
- For above ground water storage
- Manufactured in high quality polyethylene
- Suitable for domestic, agricultural and commercial use
- Low maintenance and will never rust
- Delivered with 1" ball valve outlet
- Lockable lid to reduce the risk of contamination
- All water bowsers are washed and disinfected before every hire using specialised chlorine dioxide tablets

Works in conjunction with the Challenger Site Services **On Demand Water Pump**.
