

## PLASTIC EFFLUENT TANKS

For use with your on-site toilet block facilities, our **Plastic Effluent Tanks** offer a hygienic and corrosion resistant solution to on-site effluent storage.

#### SPECIFICATIONS:

HEIGHT: 550mm      WIDTH: 2400mm  
LENGTH: 2235mm      DRY WEIGHT: 120kgs

Our effluent tanks have many advantages over traditional steel tanks, including:

- Low profile
- Light weight
- Stackable and linkable
- Do not rust or corrode
- Integrated handles/lifting points
- Sealed access points to reduce odours
- Permanent moulded safety signs

As **Registered Waste Carriers** we can empty the waste tank as and when required or on a regular basis.
