

COVID-19 COMMUNICATION

Safety, our top priority

In relation to the outbreak events of the **COVID-19 pandemic** and while this is an evolution situation, in PiC dental we follow with special attention its development throughout the world. For this reason, we are taking all the necessary measures, complying with the recommendations of the WHO and the health authorities of the respective governments, so that we can continue offering all our clients an adequate service according to their needs.

The **Madrid (Spain) and Miami (USA) offices** are currently **closed**, but our **Customer Service** and **Technical Support** teams are **operational** without any changes, working from home since March 10th, and connected through all the usual communication channels: email, telephone, through the website or WhatsApp.

As you know the presence in scientific events and commercial activity has been temporarily restricted. But we can't let our arms down and for that reason we will simply adapt to a new reality. **A digital Solution.**

ePiC symposium will **not be canceled**, it will be transformed into an online event, adapted to the current situation but keeping all the essence of its speakers and adding some **interesting changes**, such as interviews, debate sessions. We will have more information in the coming days through the website www.epicsymposium.dental.

We will keep you informed of the evolution of the situation, as well as the information and recommendations to follow always.

It is time to take care of all of us.

Stay safe

Adrián Hernández
CEO PiC dental
