I. RESIDENTIAL EROSION CONTROL

My signature hereon signifies that I am the person responsible for compliance with the Soil Erosion & Sediment Control Ordinance. I acknowledge that City inspection staff may refuse to make inspections, issue Stop Work Orders, and issue citations to appear in Recorder's Court for violations of erosion control requirements; and that I must use the Best Management Practices to control soil erosion on my job site which includes at a minimum of the following:

- Installation and regular maintenance of silt barriers (i.e. silt fences, hay bales, etc.) in those areas where water exits the job site.
• Installation and regular maintenance of a stone (1.5" - 3.5") driveway entrance/exit pad (20' wide x 20' deep x 6" thick) to minimize the tracking of mud into the street;
• Removal of mud from the street or adjacent property immediately following any such occurrence;
• Maintenance and removal of mud from detention ponds and sediment basins;
• Conduct no land disturbing activities within 25 feet of the banks of streams, lakes, wetlands, etc. (i.e. "state waters");
• Provide temporary vegetation and/or mulch in exposed critical disturbed areas.

II. SOLID WASTE MANAGEMENT

1. Construction and Demolition (C & D) Waste Disposal Information:
Note: On-site burial/disposal of Construction and Demolition (C & D) Waste is prohibited by Georgia Law. Construction and Demolition (C & D) waste means any building materials from construction and demolition operations which include, but are not limited to: asbestos-containing waste, wood, bricks, metal, concrete, wall board, paper, cardboard, and insulation of any kind.

a. State how often C & D Waste will be collected and hauled (note: hauler must have a Permit by Rule from Georgia EPD):

\_\_\_\_\_

b. Only approved containers are to be used to temporarily store waste before hauling (e.g. Dumpsters provided every other lot.)

\_\_\_\_\_

My signature hereon signifies acknowledgement of all of the above:
