

## Pet Pads

Argus Heating design, manufacture, and distribute pet pads that provide comforting warmth in your pet's bed, much like an electric blanket.

Pet pads are typically used for pets that feel the cold, are elderly, new born, unwell, or recovering from injury. The pet pad is manufactured in New Zealand from high quality components and operates at a very low power output. It is simple, safe and economical to use.

### Applications

Typically used in:

- Homes
- Veterinary clinics
- Boarding catteries
- Boarding kennels
