- Justice = To declare the rightness of an individual's claim; to receive retribution for a crime.

### THREE EXAGGERATED CLAIMS

1. The judge was unjust. → God is just.
  2. The request was perfect. → Our requests are often vindictive.
  3. She had no faith and no option. → Our faith is displayed by choosing this option.
- If God is just, then man can rest.
    - Injustice will increase as faith in God grows cold.
  - Persistent prayer is the key to perseverance.

## **DISCUSSION QUESTIONS**

1. What concerns on the world scene do we need to bring before the Lord?
2. Contrast the differences between that which settles the world and that which settles the faithful.
3. Take time to pray ... Register the state of your heart afterwards. How do you feel?
