

- 1.** Obtain the seed Holy Salt.
- 2.** New salt needs to be purchased. Take a few grains of the seed Holy Salt and sprinkle on the newly purchased salt package or carton as soon as possible upon purchase.
- 3.** Clean the environment to be used to multiply the Holy Salt. It is suggested to use a sheet of paper on a table or on the floor on which one mixes the salt piles.
- 4.** Make one pile with the seed Holy Salt and make seven identical size piles of the new salt. All the piles should be of equal amounts.
- 5.** Offer a prayer along these lines:  
“I pray that this salt is sanctified and turned into Holy Salt. This I report in the name of the (family name) Blessed Central Family.”
- Note:** If the person praying has not received the Blessing ceremony, it is suggested he/she would then pray in the name of the Three Kingships.
- 6.** Sprinkle the seed Holy Salt on each of the seven piles of new salt using your right hand.
- 7.** Mix the seed Holy Salt into each of the seven piles.
- 8.** Mix all the piles together.
- 9.** Final prayer (optional).

**Note:** If only a small quantity of the original seed Holy Salt is available, perform the above multiplication procedure more than once, thus making a greater quantity from the original seed Holy Salt.
