Machine Shop

PRODUCT GUIDE

Ideal Supply's Machine Shop is the most diversified in Canada. We're the first in the country to be awarded Machine Shop of the Year and the first in the world to be registered ISO 9002.

That's because we're known for our knowledgeable and friendly team of professionals, our state of the art technology and top-quality products. Whether the job is automotive, industrial, or agricultural, complete customer satisfaction is our guarantee.

We provide:

- > Comprehensive engine rebuilding, machining and repairs
- > Complete cylinder head reconditioning and repairs
- > Precision industrial and automotive crankshaft grinding
- > Hydraulic cylinder, hose and coupling services
- > Heating and cooling system services, including radiator repair/replacement
- > Electronic digital balancing
- > Immersed welding for automotive and industrial shafts
- > Antique passenger and tractor engine rebuilding
- > High performance rebuilding with blueprinting and precision machining
- > High performance accessories
- > Precision grinding for reel blade, including blade and shaft repair
- > Crankshaft straightening, grinding, polishing
- > Industrial and agricultural balancing
- > High performance machining for rebuilding cylinder heads
- > Solvent-free air filter cleaning
- > Back cut golf course reel sharpening
- > Pneumatic valves and cylinders

SEMPERIT 

As the largest independent distributor of NAPA auto parts in Canada, Ideal Supply is able to offer its customers a complete line of competitively-priced, high-quality **automotive** products and programs.

Manufacturers and government institutions also rely on Ideal Supply for the latest in **industrial** products, services, supply agreements and training – all of which help our customers reduce costs and improve productivity.

Ideal Supply also carries a growing inventory of **safety supplies**, making it easier for our customers to comply with the latest government regulations.

Machine Shop services at every location

Even if your Ideal Supply branch doesn't have a Machine Shop on-site we can still do the work. All our stores are equipped to take your order, provide a quote, order parts and arrange for pick-up and delivery.
