

Konkrete is a blockchain enabled fractional property marketplace that can help anyone crowdfund their home deposits or release equity from their existing property without taking on additional debt via loans. **We are democratising access to property ownership and investments for all Australians.**

KONKRETE FRACTIONAL FUND

Lives on the Konkrete Distributed Registry

Invest in property from as little as \$100

Reducing the barriers to entry for property investing

Your investments are LIQUID on the blockchain

You don't need to wait for the property to sell to realise a return

LEVERAGED returns without taking on debt

A better solution than other fractional property platforms

Do GOOD with your investment

Your investment can help young Aussies buy their first home

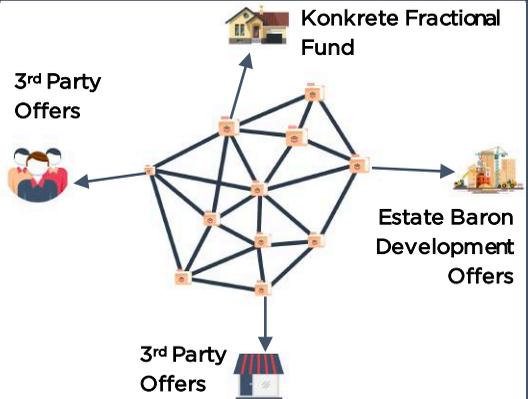

How will we do this?

KONKRETE DISTRIBUTED REGISTRY

The Konkrete Distributed Registry will be the underlying blockchain infrastructure that will host the Fractional Fund as well as any future offerings.

It will be a KYC complete distributed ledger which will also form the liquid secondary market. Transaction, Listing and Voting fees on the platform will utilise Konkrete (KKT) Tokens.

Konkrete Share Sale

Konkrete plans to raise capital by selling shares to investors across Australia. Investors will receive Preference Shares which gives them an entitlement to all future dividends of the company as well as bonus tokens. Investment will be used to build the Konkrete Distributed Registry.

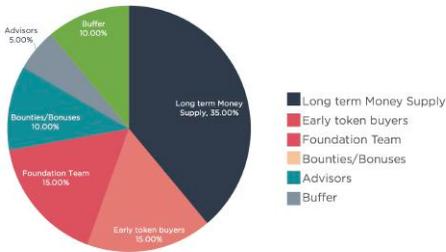

Express interest at www.konkrete.io

Interested investors will be provided with a compliant investment offer document with offer details
