

# LEADERSHIP IN ENERGY AND ENVIRONMENTAL DESIGN

Cardinal Acoustics fully supports the leadership in Energy and Environmental Design (LEED) program of the USGBC. LEED is a holistic system that doesn't simply focus on one element of a building. It looks at the big picture factoring in all of the critical elements that work together to create the best building possible. We are committed to manufacturing our panels with sustainable and renewable raw materials in a safe, nontoxic environment.

CREDIT TYPE	CATEGORY	POINTS	CONTRIBUTION
MR Credit (BD+C)	Building Product Disclosure-Sourcing of Raw Materials	1-2 points	leadership Extraction Practices-bio based
MR Credit (ID+C)	Building Product Disclosure-Sourcing of Raw Materials	1-2 points	leadership extraction practices-bio based
MR Credit (BD+C)	Building product disclosure-Material Ingredients	1-2 points	Material ingredient reporting HPD, Declare
MR Credit (ID+C)	Building product disclosure-Material Ingredients	1-2 points	Material ingredient reporting HPD, Declare
MR Credit (BD+C)	Building Product Disclosure-EPD	1 point	Environmental Product Declaration-third party
MR Credit (ID+C)	Building Product Disclosure-EPD	1-2 points	Environmental Product Declaration-third party
EQ Credit (BD+C)	Low-Emitting Materials	1-3 points	VOC Emissions, no formaldehyde
EQ Credit (ID+C)	Low-Emitting Materials	1-3 points	VOC Emissions, no formaldehyde
EQ Credit (BD+C)	Acoustic Performance	2 points	All panels are sound absorptive and reduce reverberation
EQ Credit (ID+C)	Acoustic Performance	2 points	All panels are sound absorptive and reduce reverberation
