DONATE TECHNOLOGY, CHANGE LIVES

OUR MISSION

By reusing rather than recycling electronics, human-I-T transforms E-waste into opportunities to promote digital inclusion and access by connecting low-income individuals and nonprofits to technology, internet, and digital literacy training.

OUR ACCOMPLISHMENTS

Over \$6,000,000 worth of electronic equipment has been refurbished for distribution nationwide. Thousands of low-income families now have access to a working computer and internet, while over 3,000,000 lbs of E-Waste has been diverted from landfills.
