

Innovative Marketing Concept

IMC'S VISION

Our vision is to empower every business owner on the planet with the ability to gather highly sauté after opt in data through a series of IMC'S proximity marketing technics.

This enables each business owner the ability to use that data to increase cash flow, improve customer experience and allow future advertising direct to mobile phones, lap tops, I pads and computers bringing that customer back more often.

Since June 2017, IMC has helped advice business owners all over the world with a way to reach a large customer base with the latest technology.

Our forward thinking is inspired by the genuine belief that we are on the forefront of data gathering.

IMC has just scratched the surface of what our program can do for business owners to help expand their potential.

After several years of planning IMC and its staff have put together the fastest growing data gathering and mobile advertising program in the world setting IMC up for tremendous success.

IMC is clearly the leader in the field of proximity marketing and data gathering and has no competition.

IMC prides itself in offering such a high quality program to all of its clients.
