

## Software & QA Engineer

If you are looking for a new challenge and like a high-energy environment working with innovative technologies, then you'll love it at Pronexus.

Pronexus offers tools and turnkey solutions for the telecom industry. Our main product, VBVoice®, is a sophisticated development tool for building computer-telephony and speech-based applications in the Microsoft .NET environment.

We are currently recruiting for a Software Developer/ QA Engineer to join our R&D team. Your main responsibilities will be to develop and execute test plans, work with Development to report and fix the issues found. You will also be involved in the development of new features as well as regular maintenance.

### Responsibilities

- Developing detailed test plan documentation based on project requirements
- Developing automated tests
- Executing test plans
- Logging and describing issues discovered during testing
- Troubleshooting and reproducing defects reported by customers
- Participate in development of new features and regular maintenance

### Necessary Skills & Experience

- College or University Degree in Computer Science, Mathematics or equivalent
- Development experience in C/ C++, C#, VB.NET
- Experience working in a Microsoft Windows environment using Visual Basic and Microsoft Visual Studio IDEs
- Good analytical and troubleshooting skills
- Good written and verbal communications skills
- Ability to learn new technologies and to visualize their applications and benefits

### Skills considered assets

- Telephony (i.e. PBXs, Telco) and PC knowledge
- Knowledge of signaling protocols (i.e. SIP, H.323, ISDN, T1 RB)
- Experience with bug tracking and test management systems
- Experience with Source Control (Subversion, GIT)
- Knowledge of hardware installation and configuration
- Knowledge of Linux installation and configuration
- Virtualization

If you feel you're a good fit, please send your resume in Word or PDF format to [jobs@pronexus.com](mailto:jobs@pronexus.com).

**All applications need to include salary expectations in the subject line.**
