PRONEXUS

Emergency Preparedness with VBVoice 11 IVR Platform

The Highest Standard of IVR Software

Pronexus just released VBVoice™ 11, an interactive voice response (IVR) platform that enables organizations to develop feature-rich inbound and outbound IVR solutions that improve customer service and streamline internal processes. This intelligent platform is an intuitive development experience – allowing developers to build applications faster than ever.

Preparing Your Organization for the Unexpected

VBVoice 11 can help you prepare for unexpected situations, like COVID-19. With this innovative IVR platform you will need little to no live agents and save significant operational costs, giving you more flexibility than ever, while also keeping your employees safe. VBVoice 11 is also capable of showing your organization's name and credentials; adding trust to each call. Rock solid stability and enhanced security features, means your organization will have one less thing to worry about during a crisis. Download VBVoice 11 today!
