

Dear OSPMA,

We are very grateful for being awarded the Oklahoma School Plant Management Association scholarship for the 2018-2019 school year. This scholarship has assisted with our tuition, book and fee expenses at Southwestern Oklahoma State University in Weatherford. We have completed our first year at SWOSU and are excited for our upcoming year. Both of us are playing football at SWOSU and have a very busy schedule between classes, football and working.

Billy is majoring in Pharmacy and Brayden is majoring in Exercise Science.

We appreciate your assistance with ensuring we receive the scholarship money and it has gone to great use!!!

Thank you again,
Jeannie Nunn
