

Experience

- UX Designer Intern**
Johnson & Johnson
Boston, MA / Cincinnati, OH
May 2020 - Present
May 2018 - August 2018
Drove product direction and assisted with identifying future strategies for a remote rehabilitation mobile app to augment an existing platform. Discovered unmet user needs and requirements related to mobile healthcare technologies, drafted initial wireframes and interactive digital prototypes, and vetted ideas through user testing and research.
- Graduate Researcher**
SimTigrate Design Lab
Atlanta, GA
May 2019 - May 2020
Applied user-centered design methodologies to uncover user needs and requirements, and designed and tested potential solutions for improving healthcare personnel workflow and efficacy. Regularly conducted user interviews, participatory design sessions, and simulation studies.
- UX Designer**
THRIVE
Atlanta, GA
August 2019 - May 2019
Embedded within UX design team in collaboration with major surgical system corporation to develop concept envisioning "Operating Room of the Future." Rapidly developed digital screen concepts and information display components while remaining in close touch with client to refine concept.
- Industrial Design Intern**
GE Appliances
Louisville, KY
May 2017 - May 2018
Assisted with development of next generation digital user interfaces, including rapid prototyping, user testing development and iteration. Worked with business, engineering, and human factors to arrive at viable solutions for new consumer appliances.

Education

- Georgia Institute of Technology, 2021**
Master's in Human-Computer Interaction, Product Design
Atlanta, GA
- Auburn University, 2019**
Bachelor's of Industrial Design
Auburn, AL

Recognition, Writings and such

- Design Strategies for Next Generation Biocontainment Units: Creating Safer Spaces**
Healthcare Design Magazine. 2020.
- Duit: An Overdue Innovation on a Construction Essential**
Core77. 2017.
- Designing Green Award**
Auburn University. 2017.
