# PORTFOLIO ANALYSIS

WE DO IT FAST.  
 WE DO IT RIGHT.

Legacy Migration/Backlog Development  
**Total Price: \$6,006,240**

Products					Services	
Developer License Block - Single (A1100.10.1)	Developer License Block - Small (A1100.10.2)	Developer License Block - Large (A1100.10.3)	COTS License Block - Small (A1100.20.1)	COTS License Block - Large (A1100.20.2)	Hourly Services (from rate sheet) (6200.10)	Extra Sprint (2 IUs/Team Weeks) (6200.20)
2	4	12	6	16	N/A	2

	Legacy Exact Migration No Change to Data or Logic	New MVP Application Start with the Basics
<b>Small</b> 5 Tables, 3 User Stories	Sharepoint App 1 Sharepoint App 2* Cobal App 3 Perl App 4* Perl App 5	Fortran App 6 Fortran App 7 Sharepoint App 8* Sharepoint App 9
<b>Large</b> 20 Primary Tables 10 User Stories	Object Pascal App 10 Delphi App 11 Delphi App 12	DB2 App 13 DB2 App 14 Unisys Mapper App 15 Lotus Notes App 16*

\* Indicates New or Unique features desired in additional sprints.

## Legacy Migration/Backlog Development in 3 Easy Steps:

1. Categorize Each Application
2. Detail Each Application
  - Project Plan
  - Team selection
  - Scope Exact/MVP
  - Scope Extra Sprints
3. Get it Done! Order of Operations:
  - First; Legacy, Small
  - Second; Legacy, Large
  - Third: New, Small
  - Fourth: New, Large
  - Fifth: All extra Sprints - you pick the order!

### Systems Migration

It is important to note that Systems Migration should be looked at as an independent, parallel process. It can be performed in parallel to steps 1-3 above.

**♥ WE LOVE WHEN YOU HELP US WITH THIS!**  
Any opportunity we can get to work with your team to flush out these details would be greatly appreciated. More importantly, it will accelerate time to market.

**✓ REQUIRED.**  
It's important that your team provide a clear acceptance at this point. There is still a lot of work ahead and it needs our dedicated focus, so we need as much discipline as possible around concluding previous features.

**⑨ CITIZEN DEVELOPER IN TRAINING!**  
If your team is able to contribute on these steps, they will find it crazy-easy to take over the "keys to the kingdom" and to become citizen developers at the end of the project!
