Power in Craft

Custom Crafted Cabinets . Unlimited Colors . Unlimited Design

We craft
Dep

endable

Manzel Craft was founded in 2016 with a simple vision—making high quality, custom cabinets more accessible. Manzel Craft offers a smart solution to the industry's outdated standard of choosing from East Asian “semi-custom” cabinets available only in limited colors and styles or custom cabinets that come at a high-cost premium. Instead, we choose to invest in green, sustainable American craftsmanship and carpentry and support our local community through our cabinet buy-back program.

- * Highest quality American-made, locally-sourced solid wood and engineered products;
- * Made-to-order cabinets measured and designed for your space to reduce waste and added costs;
- * Any color, stain, or glaze at no additional charge;
- * Fully custom cabinets crafted with a strong commitment to empowering our community and environment.

Luxurious Traditional

Formal, Elegant, Classic.
 Traditional style boasts warm
 rich colors with multiple
 textures and layers. Ornate
 millwork, elaborate finishes,
 rounded and ogee edges,
 traditional styles are made for
 showcasing the beautiful
 intricacies and unique qualities
 of wood.

Call us at 301 469 4777

Contemporary Clean

European (American) clean style, or contemporary design, draws its influence from minimalist Scandinavian aesthetic and functionalism. Contemporary design began in the 1970s as an extension of Modern design, but is also influenced by Art Deco and Futurism. As such, Contemporary design often pushes boundaries of traditional style and experiments with neutral and bright colors and materials.

Trending Transitional

If the traditional and contemporary styles had a child, it would be transitional. Transitional styles are trending especially because you can have the best of two established interior styles. It is comfortable, yet elegant. Beige, cream, and gray monochromatic color tones dominate in this style with interest added in layering textures and fabrics—not necessarily color or pattern.

Cool Modern

The Modern style incorporates clean squared lines, geometric shapes and sleek aesthetic. Beginning in the Bauhaus and later mid-century Modern era between 1940s-1960s, the Modern style is inspired by the post-war industrial era and as such draws on natural materials such as wood and leather.

A large, ornate kitchen with white cabinetry, a central island, and a chandelier. The kitchen features a large stainless steel refrigerator on the left, a central island with a curved countertop, and a built-in oven with a decorative surround. The cabinets are white with glass-paned doors and drawers. A large chandelier hangs from the ceiling. The floor is made of large, light-colored tiles. The overall style is classic and elegant.

Mullions

Enhance your space and showcase your favorite items with our mullion doors. Choose from 22 available designs or create your own!

Beautiful

Accessories Galore

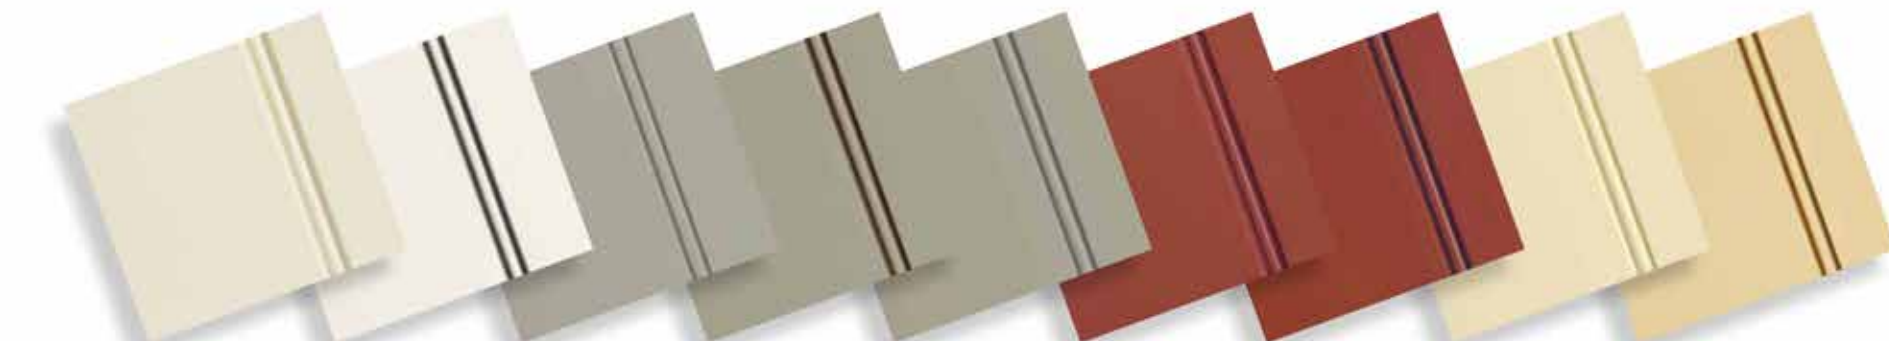

A place for everything and everything in its space, take your all-American Manzel Craft cabinets to the next level in organization with smart in-cabinet space solutions.

A close-up photograph of a person's hand wearing a bright yellow rubber glove. The hand is holding a brush and applying a dark, viscous liquid, likely a wood finish or stain, onto a light-colored wooden surface. The background is blurred, showing what appears to be a workshop or factory setting with other people and equipment. The text "We craft Finishing" is overlaid on the bottom half of the image in a white, sans-serif font.

WTO WAY TO ORDER

So, you've decided to update your space, now what? Manzel Craft cabinetry is a truly custom product—and that means measurement matters. But don't worry, we are here to guide you through every step of the process. To get the best fit we rely on professionals to do the job—you just pick your style, color, and any customization—we will make it happen.

STEP 1 CHOOSE your Door Style

Recessed or Raised? Mitered or Mortise and Tenoned? Applied Molding or Simple? Painted or Stained?

STEP 2 TIME to measure

To get started we ask you to take the following steps:

1. Take 4 pictures of your space, one from the front, one from the left, one from the right, and one from the back.
2. Then we need some basic measurements of the room. Measure wall to wall in inches, noting any doors and windows. Also, let us know your ceiling height and how far up you'd like your kitchen to go. It's OK if it's a rough estimate, we will measure exactly before we order anything.
3. Send us some pictures of your dream space.

We will take this information and provide you with a base quote.

STEP 3 LET'S Customize

Want your plates to have their own home? How about a built-in knife block or utensil dividers? Need pants storage, belts and tie racks, dividers for all your shirts? With cabinet organization galore to choose from, create an organized space with the customization you want.

Let's talk about colors, molding, lighting, and finishing options. After we listen to your needs and wants and study your inspirational photos, we measure your space and will order an exact sample of your door for you to love.

STEP 4 YOUR Custom Installation

Our specialized team will install your custom cabinets on location or you can roll up your sleeves and do it yourself—you pick!

STEP 5

Love
YOUR SPACE

Power in Craft

Manzel Craft has donated more than \$200,000 in used cabinetry and other materials to local charities through our exciting buy-back program.

Sell us your old cabinetry and receive between \$500 to \$3,000 when you order your new cabinet system with us. We then donate them to local families in need.
